GUEST LECTURE ON MACHINE LEARNING

OCTOBER 5

The guest lecture was held on the topic "Role of Machine Learning in Modern Industries: Futuristic Perspective". The session was conducted on 5th October 2020. The duration of the session was 1 hour from 10:00 a.m. to 11:00 a.m. Dr.Shriram K Vasudevan, Asst. Professor/Computer Science Engineering, Amrita Vishwa Vidyapeetham University, Coimbatore was the chief guest of the session. The session started with prayer followed by the welcome address about the guest by the Academic Chief Coordinator and former Head of the Department, ECE, Dr.G.Murugesan. Then the chief guest started his lecture. He began his lecture by giving a brief introduction on Machine Learning in an elegant manner such that every student could grasp it. Then he explained various concepts of machine learning. He then showed some of his Machine Learning modals. He explained some of his works to the students and encouraged them to kick off their journey in the field of Machine Learning. At the end of the session, he answered all the queries of the students and provided valuable information much needed for their career.

INAUGURAL FUNCTION OF IGS– KEC STUDENTS' CHAPTER 2020-21

Guest details:

Dr. P. Raja
Senior Scientist
ICAR-Indian Institute of Soil and Water Conservation (IISWC),
Udhagamandalam

Date:

Title:

Soil mapping using field cum geospatial techniques and soil - landscape relationships

Participants: 81

A guest lecture on "Soil mapping using field cum geospatial techniques and soil - landscape relationships" was conducted 10.06.2020 through virtual mode. Dr. P.S. Kothai HoD/Civil Engineering welcomed the gathering. Dr. P. Raja, Senior Scientist, ICAR-Indian Institute of Soil and Water Conservation (IISWC), Udhagamandalam inaugurated the IGS KEC students chapter for the year 2020-2021 and explained about geospatial techniques as follows. Timely and reliable information on soils with respect to their nature, extent, spatial distribution is very crucial for optimal utilization of available natural resources on a sustained basis. The technological advances in the field of remote sensing, Global Positioning System (GPS) and Geographic Information System (GIS) have augmented the efficiency of soil survey. The management of resources on sustainable basis emphasis the overall development of the region without diminishing the environment. The integrated use of advanced computer technologies with database can be used to assist decision makers for future plans. Yet, so far most of the studies have been performed on a small scale and only few on regional or larger map scale. Although progress has been made from earlier, current methods and techniques still bear potential to further explore the full range of spectral, spatial and temporal of high resolution

satellites in soil resource mapping and characterization. Precisely, the guest detailed the status on the applications of high resolution remote sensing data like IRS-P6 LISS IV, PAN, Cartosat-I, IKONOS, GPS and GIS in soil resource inventory and characterization at large scale for the micro level agricultural planning. At the end, e-certificates were awarded to the participants. Mr. S. Vinodhkumar, AP/Civil delivered the vote of thanks.

About the Programme:

Kongu Business School, has Organized guest lecture for the MBA students with Strategy Focus 2020-21, which will have a host of online seminars, lectures, and games. Ms. Swarna Sudha Selvaraj, Head – Talent Management, Tata Consultancy Services, London, delivered an illuminating lecture on 'Digital Presence: Build Your Personal Brand' on July 25, 2020. She started her lecture with the following content, freelancers and entrepreneurs, building a personal brand has never been more important than it is today. Anyone with access to the internet and social media can build an audience, position themselves as an expert, and start attracting clients for their business. And that's exactly what a lot of people are doing.

She continued sharing about the benefits of personal branding like trust and authority, get featured in media, build your network, attract more clients, etc., She also suggested some methods of creating compelling and profitable personal branding. She concluded her speech by saying that this is why building a personal brand is so powerful. When you build a personal brand, you immediately differentiate yourself from your competitors because YOU are different than your competitors. Students gained many insights about the personal branding and its business environment with positive view.

About the Programme:

Kongu Business School, has Organized guest lecture for the MBA students with Strategy Focus 2020-21, which will have a host of online seminars, lectures, and games. Ms Chandralekha Chauduri, National Head –Talent Acquisition, Ujjivan Small Finance Bank Ltd., Bengaluru, delivered an insightful lecture on 'Up-skilling and Re-skilling are need of the hour – A BFSI Industry Approach' on August 08, 2020. Ms Chandralekha Chauduri shared her views and experience for students. She started her talk about the basic concepts of BFSI sector and its necessity for our economic development. And continued the information about the opportunities in BFSI companies primarily hire graduates from the commerce stream or engineering graduates. With advanced technology being integrated into mainstream roles, it would appear that engineering graduates may be the prime candidates to fill new IT-based job positions in BFSI companies.

She shared his view on the background of the following points. With innovative technological solutions promising to change the face of banking and financial services, reskilling existing employees to fill in new roles is one of the core challenges that BFSI companies face. In spite of the looming problems surrounding reskilling, a significant proportion of recruiters aren't giving it the attention it's due. Students gained many insights about the Banking, financial services, and insurance companies can also invest in re-skilling their employees by partnering with institutions which are committed to bridging the gap between the skills in demand and the skills actually possessed by graduates and existing employees.

Event Name: Webinar on Solar PV Technology and Applications

Date: 24.08.2020

The ISoI Students' Chapter organized a webinar on Solar PV Technology and Applications on 28th August,2020 by Mr. Palraj Palanisamy, Senior Engineer, Solar PV Green Limited, Port Moresby, Papua New Guinea. The webinar was conducted for second and third year students in the aspects of PV and CSP. The webinar gave the basic information of Solar PV and storage systems of grid-tied, hybrid, off-grid and its applications of storage installation. The webinar demonstrated the PV Power system by Renewable energy in daily life routine. Further explained the applications of solar like Solar heating of buildings, Solar-distillation, Solar cooking and Solar Power generation. The ending part of a session was interesting with more innovative ideas.

Mr.Palraj Palanisamy, Senior Engineer, Solar PV Green Limited, Papua New Guinea, delivered the webinar "Solar PV Technology and Applications" on 24.08.2020

Association Inaugural Function and Guest Lecturer (26.08.2020)
Report (200 words Max)

Dr.Santhosh Sambamoorthy Veda, group manager, grid automation control, NREL,USA specialize in Power Systems Modeling and Simulation, Power Systems Protection and Controls. He graduated from Virginia Tech with a PhD in Electrical Engineering focusing on Power Systems Stability Analysis, Wide Area Monitoring & Control and Power System Protection and also lead a group of researchers that work on developing, evaluating and integrating novel grid automation and control technologies including ADMS, EMS, Microgrid controllers and HEMS. From his lecture we learn the Information about National Renewable Energy Laboratory (NREL),one of 17 US federal government national laboratories. Notable information about renewable energy into the Electricity Grid. New thing about Ikigai-A Reason for being have passion, vision, profession and vocation. Explores energy systems and technologies and the science behind them for a future powered by affordable, abundant and clean energy.

Department of Electronics and Instrumentation Engineering

Event Name: Webinar on Basics of Electronics. Date: 09.09.2020

EIE Association of Kongu Engineering College, Perundurai arranged an enlightening guest lecture on 9th September,2020. The speaker of the day was Mr. Ranjith Kumar. He was supposed to speak on the topic “Basic of electronics”. He was well and good in that part started explaining in the way students can understand easily. The students showed more interest in listening to his words as it was more interesting and easier to learn. The day ended with a knowledgeable stuff. Lately, we ended the session with a deep sense of Thanksgiving to him and the students who attended the session.

Mr.Ranjith Kumar.M, Director, Crystal Clear Technology & Innovation, Coimbatore delivered the webinar “Basics of Electronics” on 09.09.2020

The inaugural of Android Application Development & Programming Club for the academic year 2020-21 is done on 10.09.2020 at 4.30 pm. The club is inaugurated by Thiru.P.Sachithanandan, Correspondent, Kongu Engineering College and felicitated by Dr.V.Balusamy, Principal, Kongu Engineering College. The And Guest Lecture on "**Importance of Mobile Technologies**" conducted on 10.09.2020 from 5.00 pm to 06.00 pm for the benefit of the students. Around 180 students have attended the program via Google Meet (Online Mode). The Guest Speaker Mr. Somasundaram Mahesh, Engineering Lead, Qube Cinema Pvt.Ltd, Chennai has provided fruitful lecture about the importance of mobile technologies and overall opportunities related to this field. Also discussed the global opportunities and recent trends in the field. This seminar enabled the students to have industry exposure and practical knowledge about this field. Students are highly motivated since this seminar addressed all the insights of mobile communication and technologies.

INAUGURAL FUNCTION & GUEST LECTURE - REPORT

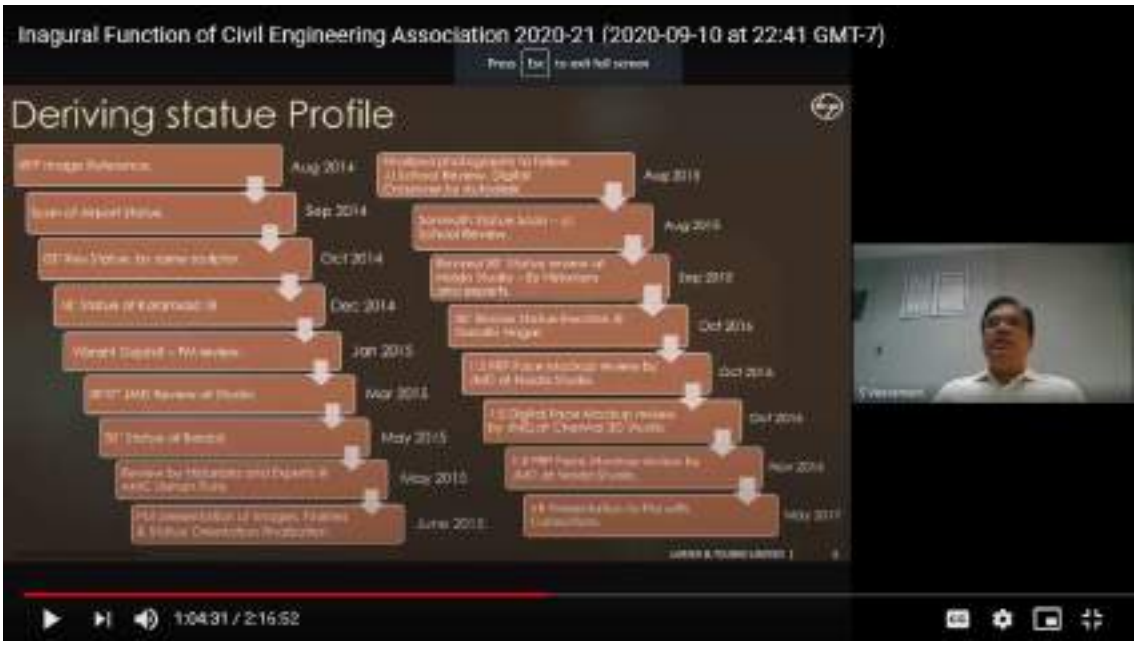

STORY BEHIND MAKING OF WORLD'S TALLEST STATUE

(Mr.S.Veeramani, L&T, Chennai)

Mr.S.Veeramani explained in a detailed manner about the various stages involved in planning, analysis, design and execution of the world's tallest statue of Sardar Vallabhbhai Patel located in Gujarat. The statue is about 182 m tall (597 feet). The complete planning, design and execution was done by L&T Constructions, Chennai and Mr.S.Veeramani was the Head of Design team for the project. The statue is also called as Statue of Unity.

Over 3,000 workers, including 300 engineers from Larsen & Toubro (L&T), built the statue within three-and-a-half years. Around 129 tonnes of iron was used in construction. The innermost layer of the three-layered structure is made of reinforced cement concrete (RCC), steel and 8 mm bronze. The statue will be able to withstand earthquakes and wind speed up to around 100 km per second. The statue has a viewing gallery at 153 metres from where around 200 people can have a panoramic view of the Sardar Sarovar Dam, and the Satpura and Vindhyachal mountain ranges. Mr.S.Veeramani explained about the various difficulties they faced during construction process and how his team of engineers overcame them.

Mr.S.Veeramani, General Manager, L&T Construction presenting guest lecture on "Story behind making of world's tallest Statue" through Google Meet.

Department of Electronics and Instrumentation Engineering

Event Name: Inaugural and Guest Lecture. Date: 19.09.2020

The Inaugural function of EIE association and Instrumentation Society of India (ISoI) students' chapter of Kongu Engineering College was held on 19th September,2020. The elated function started off in an exquisite manner with a prayer song and lighting of 'Kuthuvilaku' Virtually. Dr.S.Vijayachitra, Head of the Department, gave the HOD's address by listing the achievements of the students of EIE department and introduced the faculty coordinators of Association and ISoI students' Chapter. Followed by she also introduced the office bearers of Association, Dycon Newsletter and ISoI students' Chapter. The year plan of EIE association was proposed by Mr.R.Suren, Secretary, EIE Association and the year plan of ISoI students' chapter was proposed by Mr.K.B.Gobi, Chairman of ISoI students' chapter. The Presidential Address was delivered by Dr.V.Balusamy, Principal, Kongu Engineering College. He also added some colourful words of appreciation and encouraged us to do more activities. The chief guest was Mr.R.N.Balasubramaniam. The chief Guest gave wide cues about the topic of "Intelligent Instrumentation and Networking Automation". He keenly explained the topic. All the students were very active and they wear smile throughout the function. And all was done greatly. This was an eye opener for students to know about the importance of Automation techniques. The ending part was with much gratitude to the faculties who helped us to do and the hope that the function was covered with great joy.

MANAGEMENT ASSOCIATION (2020- 2021)

About the Programme:

Smt. Chitra K Alai started her speech with points related to the basic information about the need of entrepreneurship and the support from government finance institutions. MSMEs play a significant role as the growth engines of the Indian Economy. In fact, they have been playing a critical role in the socio-economic development of the country. Their main objectives have been mass employment generation, low investment, import substitution, export earnings, labour intensive mode of production, capacity to develop indigenous technology and high contribution to domestic production. MSME sector is heterogeneous, highly dispersed and mostly unorganized. The developing economy of Tamilnadu is also based on development of SSIs and MSMEs in the state. She continued her speech with the four basic objectives of SIDBI are: financing, promotion, development, and coordination for orderly growth of the small-scale industries. And how the other financial support from various institutions to the startup entrepreneurs are available also discussed.

Student had a great interaction with the guest with questions related to startup ideas and scope for governmental support. Students gained more knowledge towards the topic.

About the Programme:

Kongu Business School, has Organized guest lecture for the MBA students with Strategy Focus 2020-21, which will have a host of online seminars, lectures, and games. Dr. K. Rathinam, CEO, Milky Mist Food Pvt. Ltd, Erode, delivered an illuminating lecture on 'Post Covid Challenges & Opportunities in Indian Diary Industry - Marketing Perspective' on September 26, 2020. Dr. K. Rathinam shared his views and experience for students about the realities of the post-pandemic.

He started his talk with introduction of dairy business in India. The dairy sector plays a critical role in linking Indian rural households to consumers in the domestic and international markets. India has been the leading producer and consumer of dairy products worldwide with a sustained growth in the availability of milk and milk products.

He continued, with nationwide lockdown measures in place due to Covid-19 pandemic, disruption in demand-supply chains had an impact on dairy sector too. How the sector faced initial hiccups in form of operational challenges such as transportation of material, shortage of workforce procuring milk and workforce restrictions to name a few during lockdown, according to the organizers. Students interacted with guest and got insights about marketing of dairy products in this pandemic.

GUEST LECTURE – REPORT

BENEFITS AND CAREER OPPORTUNITIES WITH GATE FOR CIVIL ENGINEERS

(Mr.Akash Pushkar, The GATE Academy, Coimbatore)

The Department of Civil Engineering organized a guest lecture on "Benefits and Career Opportunities with GATE for Civil Engineers" on 25.09.2020 through virtual mode. Mr.Akash Pushkar from The GATE Academy explained in a detailed manner about the various opportunities available for civil engineering students through GATE exam both at higher education level as well as job opportunities in Public Sector Units (PSU).

In the initial part, he discussed about the pattern of GATE examination, new changes introduced in GATE 2021, and the cut off marks for qualification in the previous academic years.

In the later part, detailed explanation of job opportunities in PSUs and their recruitment procedure was presented. He then interacted with the students regarding various aspects of GATE. The program was attended by final year and third year students of civil engineering department.

----------write-up-**Valedictory Function & GL**----------

“If you think you can do a thing or think you can’t do a thing, you’re right”.The **Virtual Valedictory Function** and our Final **Guest lecture** of Computer Science and Engineering Association (CSEA) for the academic year 2020-2021 was held on 29th March of 2021(2pm-3pm).The guest lecture event was virtually organized through google meet, with our Guest Mr.M.Dinesh. The Event began with warm welcome speech delivered by Mr.S Manickam, Treasurer(CSEA) uttering the pride of our Guest lecturer. Then, Our honorable Head of the department, Dr.N.Shanthi, delivered the presidential address which was inspiring as ever.It was followed by the enchanting lecture taken by our Guest on the topic ”**Software testing”** and he solemnly concluded with a Question and Answer session with the students. His lecture highlighted the necessities of learning new techs;The event wrapped up with a vote of thanks proclaimed by our Executive Member Harisudhan S from 2nd year. The lecture was also streamed live on Youtube for the gain of Knowledge for our Students and to encourage the spirit of learning. Compering work is delivered with a team of Vaishnavi and shanmathi.

Department of Electronics and Instrumentation Engineering

Event Name: Webinar on Real Time Applications using IoT

Date: 03.10.2020

The ISoI Students' Chapter organized a webinar on Real time applications using IoT on 03.10.2020 by Mr. Senthil Subramaniam, Partner of Mighty Electronics Equipment Corporation, Coimbatore. The webinar was conducted for second and third - year students in the IoT technical domain. The webinar gave basic information of IoT on sensors, embedded system, wireless communication, internet, data storage and power management. The webinar demonstrated the practical explanation on IoT tester kit for various controller like raspberry pi, Arduino, node MCU. In this webinar real time practical problems are explained by using the Blynk app application on wireless LED glow.

Mr.Senthil Subramaniam, Partner, Might Electronics Equipments Corporation, Coimbatore delivered the webinar "Real Time Applications using IoT" on 03.10.2020

Report (200 words Max)

Mr.AnandAbhishek is Currently working as Scientist, Societal Electronics Group,CSIR-Central Electronics Engineering Research Institute(CSIR-CEERI), Pilani, Rajassthan. He also discharge duties of Asst.Prof under Academy of Scientific and Innovative Research, Ghaziabad. He Started career as Trainee Scientist(Scientist-B)in 2012 at CSIR- CEERI, Pilani M.Tech from academy of Scientific and Innovative Research in 2014. He is a reviewer of IET and AIP Journals. His areas of Research are Power Electronics and Renewable Energy Systems, SmartGrids, Microgrids. Awarded Second Prize under AWSAR scheme by DST, Govt. of India in august presence of honourable President of India Sh.RamnathKovind. Authored more than 12 research papers in various SCI Journals and International Conferences and one Indian patent. Worked and lead various projects sponsored by CSIR/DST/Industries majorly in field of DC Microgrid, Electric Vehicle Charging, Industrial Applications Supplies, etc. From his valuable lecture the students learnt that A smart grid can help reduce greenhouse gas emissions by upto 211 million metric tons and is much more reliable than a traditional grid.This is what is driving investors to put their money in this new technology. By 2020,the industry is expected to have a valuation of over $400 billion.

Kongu Engineering College, Perundurai

Department of Electronics and Instrumentation Engineering

Event Name: Webinar on Life, Career and Dreams Date: 05.10.2020

A special webinar was conducted by ElE association of Kongu Engineering College on 5th October,2020.The enlightening webinar started off in an great manner with a prayer song. The welcome address was a delighting part and Dr.S.Vijayachitra,Head of the department again welcomed all. The chief intro was with a poetic lines. The chief guest was Mr.Sivakumar Palaniappan. He spoke about “Life, Career and Dreams”. He keenly explained the topic with some real time examples. All the students enjoyed and at the same time they took some motivation for their life. He gave many stuffs related to what we should do and don’t in our career. This was a really good session. The queries asked by students to the chief guest and the way he cleared all the doubts of students was inspiring. The ending part was with much gratitude to the faculties who helped us to do and in vote of thanks we mentioned that we want to hear his aesthetic voice once again on some day because of his powerful words.

Mr.Sivakumar Palaniappan, founder Director, Thickfluence Global, Coimbatore delivered the webinar “Life, Career and Dreams” on 05.10.2020

ALUMNI GUEST LECTURE

DATE : 06.10.2020

TOPIC : Study abroad and technical talk on extrusion processing

RESOURCE PERSON: Dr. Gabriela John Swamy, Department of Nutrition, food Sciences and Packaging, San Jose State University, California, USA.

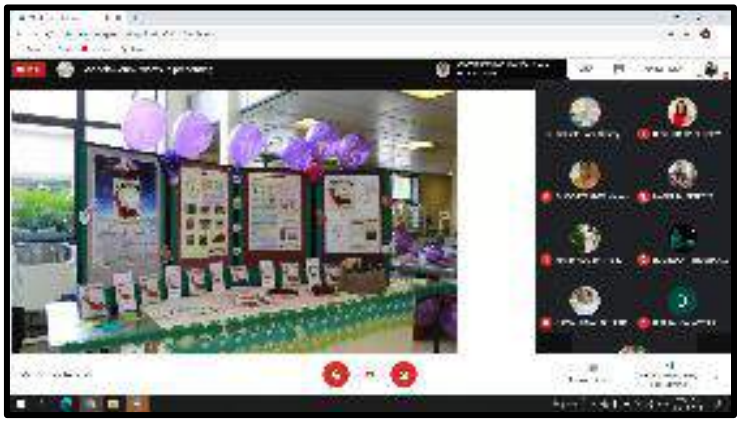

Dr. Gabriela JohnSwamy, PhD is currently working as Nutrition, Food Science & Packaging Lecturer at San Jose State University, California. She did her B. Tech., Food Technology at Kongu Engineering College, India. M.Sc., Food Quality and Innovation, University of Leeds, UK and Ph.D., Agricultural Bio systems and Mechanical Engineering.

Extrusion processing system utilizes a single screw or a set of screws to force food materials through a small opening. While food is being forced through the extruder, foods are cooked by the high pressure, high shear, and high temperature environment created by the screws, encased in the barrel. Upon exiting, materials often puff due to the release of pressure and conversion of water into steam. The entire process is continuous and capable of happening in less than a minute. The most commonly used extruders in the food industry include single-screw and twin-screw systems, with twin-screw systems more widely used because of their flexibility.

Dr. Gabriela John Swamy has addressed the students regarding her journey of career and she mentioned some of the projects that she had undergone in her research. She also gave a technical talk about ultrasonic technology, Plasma Packaging and Extrusion processing. The guest also addressed the students queries at the end of her lecture.

GUEST LECTURE ON USER INTERFACE DESIGN

DATE : 06.10.2020

TOPIC: USER INTERFACE DESIGN

CHIEF GUEST : Mr. A.G REUBEN

UX Junior Designer

LeagueX Gaming.

OUTCOME OF THE PROGRAMME

Our Association (CT-PG) conducted a guest lecture on 06-oct-2020 at 11.30 A.M via Google meet.UX is important because it tries to fulfill the user's needs. It aims to provide positive experiences that keep users loyal to the product or brand. Additionally, a meaningful user experience allows you to define customer journeys on your website that are most conducive to business success.So we invited Mr.Reuben. He is an UX junior Designer in LeagueX Gaming. He shared his knowledge in the this particular field. He explained about the work and the role of UX Designer in the society. He demonstrated some designs and app UI's that he made by himself. He stated the importance of UX designs in the web based product.

EXPERTISE OF THE SPEAKER: Mr.A.G REUBEN:

He is a proud alumni of our department. He pursued his MSc degree in the period of 2014-2019. He was invited as a chief guest because, he has a wide Knowledge in UX designs and he can clearly explain the students how to start the practice in UX design.

Note from the Speaker

Sustainability is a broad discipline, giving students and graduates insights into most aspects of the human world from business to technology to environment and the social sciences. The core skills with which a graduates leaves college or university are highly sought after, especially in a modern world looking to drastically reduce carbon emissions and discover and develop the technologies of the future. Sustainability draws on politics, economics and, philosophy and other social sciences as well as the hard sciences. Sustainability skills and environmental awareness is a priority in many corporate jobs at graduate level and over as businesses seek to adhere to new legislation. Therefore, Sustainability graduates will go into many fields but most commonly civic planning, environmental consultancy (built and natural environment), agriculture, not for profit, corporate strategies, health assessment and planning, and even into law and decision making. Entry-level jobs are growing and over the coming years, bachelor's graduates can expect more and more options and opportunities.

REPORT

Description about the Guest Lecture: (7th Oct 2020 Timing:10.30 AM to 11.30 AM):

Mr.Raja Sathasivam, Senior Staff Engineer, NextGen Healthcare India Pvt. Ltd, Bangalore gave a valuable guest lecture to the students of Information Technology on the topic "Introduction to Test Automation in Web". Demonstration was done using certain software development tools and lot of students get some knowledge on the usage of various software development tools.

Covered some points about Selenium Software and some of the points he discussed are as follows: Selenium is a portable framework for testing web applications. Selenium provides a playback tool for authoring functional tests without the need to learn a test scripting language (Selenium IDE).

It also provides a test domain-specific language (Selenese) to write tests in a number of popular programming languages, including C#, Groovy, Java, Perl, PHP, Python, Ruby and Scala. The tests can then run against most modern web browsers. Selenium runs on Windows, Linux, and macOS. It is open-source software released under the Apache License 2.0.

BRIEF REPORT OF THE GUEST LECTURE

Date of the Programme	:	**18.10.2020**
Topic of the Guest Lecture	:	**Journey to Dalal Street**
Name of the Guest(s)	:	**Mr. S. Mukesh** Research Analyst (Equity) SBISCAP Securities Ltd., Chennai
No. of participants	:	**116**

About the Programme:

Mr. S. Mukesh, Research Analyst (Equity), SBISCAP Securities Ltd., Chennai delivered a lecture to MBA second year students on “Journey to Dalal Street” it is all about basics of Stock Market and "How & Why to Participate in the Stock Mind Program". The focus was on the basic understanding of the stock market and how the bonds, mutual funds, derivatives and shares are traded. The lecture covered the Stock Mind Program related queries that how and why the students should perform in the Stock Mind Program.

It was a great lecture to communicate critical aspects of stock analysis to students, which in turn would help students to take better investing decisions and avoid the most common pitfalls. The students asked some very insightful questions related to stock pricing, business players, stock selection, capital generation etc. It definitely a wonderful session for the students to remove mind barriers toward the stock investment.

Kongu Engineering College, Perundurai

Department of Mechanical Engineering

Event Name: Guest Lecturer Date: 24.10.2020

On October 10, 2020, the Mechanical Engineering Association of Kongu Engineering College, Perundurai, hosted an informative guest lecture. Mr. Akash Pushkar was the day's speaker. He was meant to give a presentation on " Benefits & Career Opportunities with GATE " He was excellent in that area and began explaining things in a way that pupils could understand. Because it was more fascinating and easy to learn, the pupils were more interested in listening to his words. The day came to a close with some useful information. We recently concluded the session with a heartfelt expression of gratitude to him and the kids who attended.

Mr. Akash Pushkar, Data Scientist, The Gate Academy, Bangalore delivered the Guest Lecture "Benefits & Career Opportunities with GATE

GUEST LECTURE ON WORKING OF MACHINE LEARNING

DATE :24.10.2020

TOPIC : The working of machine learning

CHIEF GUEST : Mr.M.Eswaran

Technical manager,

Live Stream Technologies,

Coimbatore.

OUTCOME OF THE PROGRAMME:

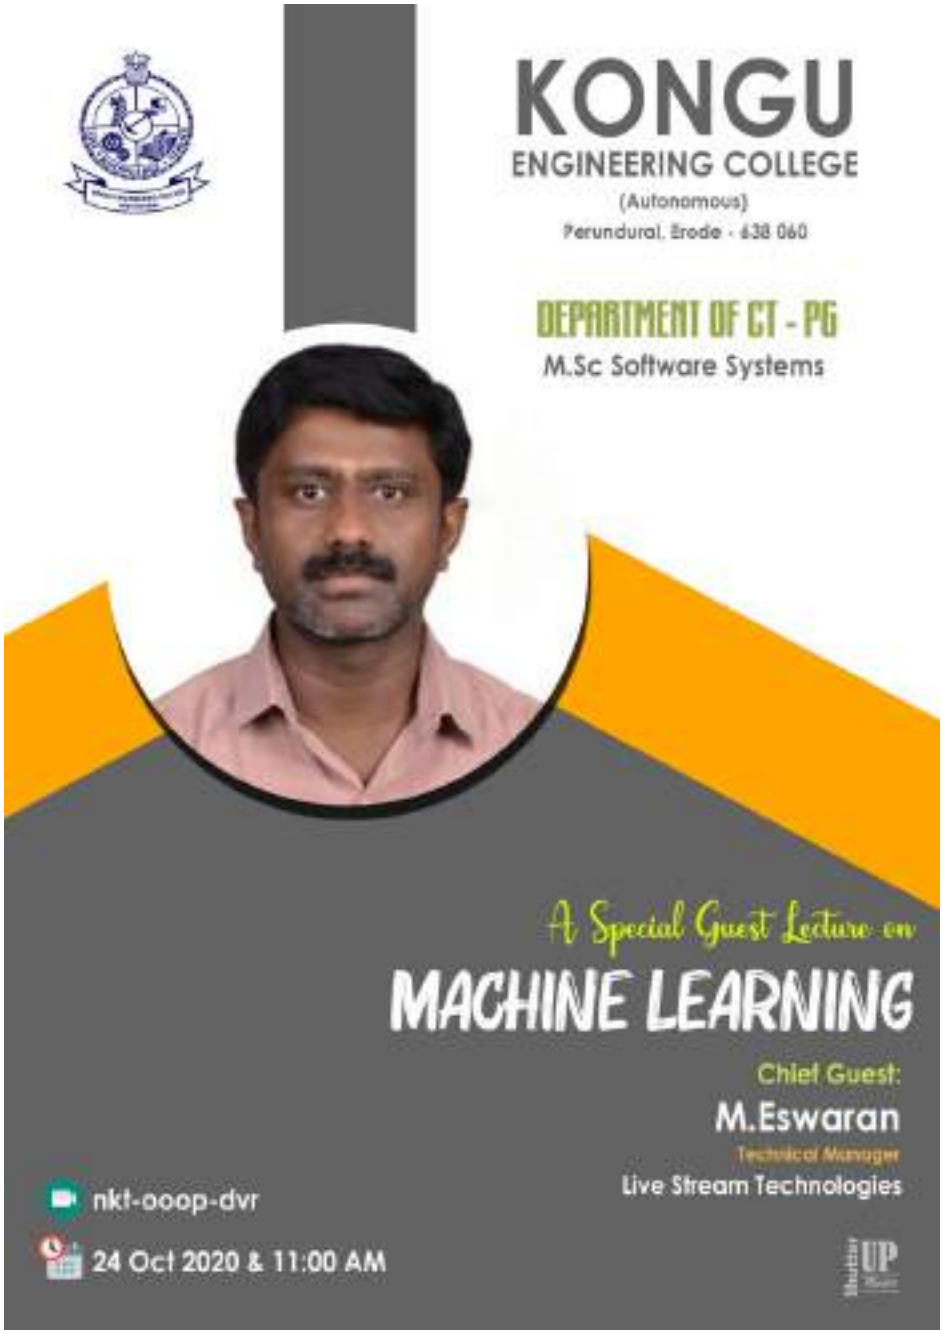

Our Association (CT-PG) conducted an guest lecture on 24-10-2020 at 11.00 A.M via Google meet. Machine learning is a form of artificial intelligence (AI) that teaches computers to think in a similar way to how humans do: learning and improving upon past experiences. It works by exploring data, identifying patterns, and involves minimal human innovation. Almost any task that can be completed with a data-defined pattern or set of rules can be automated with machine learning.

The outcome of the lecture was to bring out the advanced concept of machine learning techniques. Mr.M.Eswarandelivered a complete orientation about the working of machine learning. Students acquired an awareness on various application areas of Machine Learning, its advantages and disadvantages. The active interest and enthusiasm of the students could be gauged by the high level of interaction generated by this session.

EXPERTISE OF THE SPEAKER:

Mr.M.ESWARAN

He is the Technical Manager at Live Stream Technologies, Coimbatore. He had completed his graduation in Hindustan College of Arts and Science. He is well experienced in the field of software engineering. He had very strong passion towards delivering his knowledge to the students. He has shared his knowledge in relation to the term of ‘Machine Learning’, its key aspects, advantages and disadvantages.He is a highly effective coordinator of high end guest lectures in the field of software solutions.

DATE: October18, 2021

TIME: 5: 00 PM to 6: 00 PM IST

TOPIC: Autonomous Vehicle Communication in 5G Wireless Communication

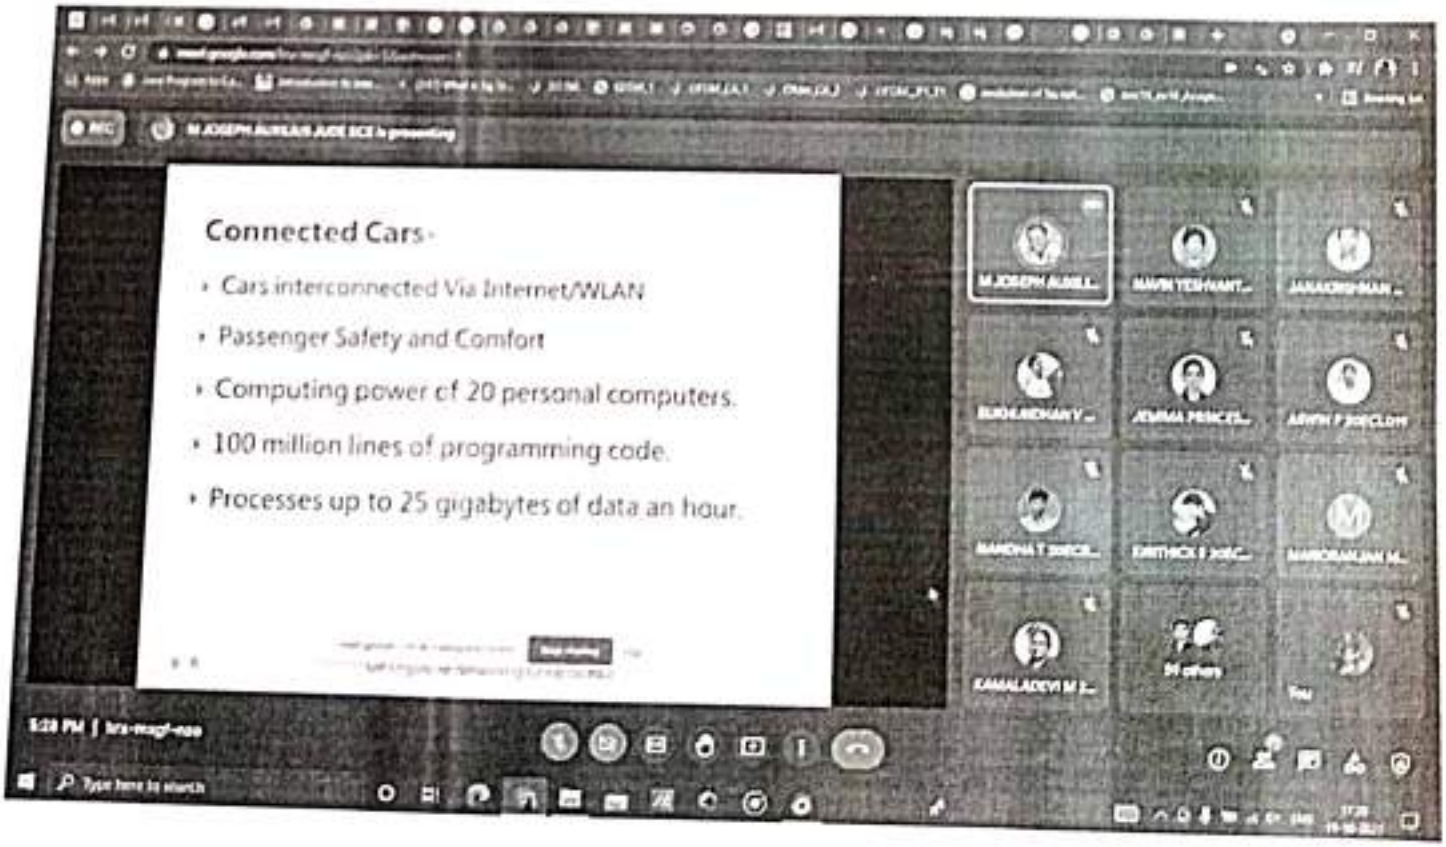

SPEAKER: Dr. Joseph Auxilius Jude,
Associate Professor/ECE,
Kongu Engineering College,
Perundurai

SHORT DESCRIPTION:

IEEE Computer Society of IEEE Kongu Engineering College organized a webinar on a futuristic topic, **Autonomous Vehicle Communication in 5G Wireless Communication.** The talk was delivered by Dr. Joseph Auxilius Jude, Associate Professor, Department of ECE, Kongu Engineering College, Perundurai. The webinar had 83 participants eagerly getting inputs regarding Autonomous Vehicle Communication and how it can be implemented via 5G Communications.

This webinar discuss the topic Includes autonomous car technology and adoption of 5G wireless technology on the development of self-driving cars making them faster, smarter, and even safer than human-controlled vehicles. Self-driving cars use hundreds of sensors. Handling, processing, and analyzing this amount of data requires a much faster network, and the speeds needed to mimic the timing of human reflexes. When adopted at the full scale, will offer internet speeds up to 100 times faster than 4G. Furthermore, the technology's low latency will make these vehicles extraordinarily safe and reliable on the roads.

VISTA 2K20 - GUEST LECTURE – REPORT

"CONCEPTS OF PRESTRESSED CONCRETE"

(Mr. M. Geo Damin, General Manager – Design,

SF Engineering Systems (I) Pvt Ltd, Chennai)

Mr. M. Geo Damin, General Manager – Design, SF Engineering Systems (I) Pvt Ltd, Chennai, presenting a guest lecture for VISTA 2K20

A guest lecture on "Concepts of Prestressed Concrete" was conducted on 11.11.2020 through virtual mode by the Civil Engineering Association along with the intra department technical symposium VISTA 2K20. Mr. M. Geo Damin from SF Engineering Systems participated as a chief guest for the inaugural function of VISTA and presented this lecture.

Prestressed concrete is a form of concrete used in construction. It is substantially "prestressed" (compressed) during production, in a manner that strengthens it against tensile forces which will exist when in service. This compression is produced by the tensioning of high-strength "tendons" located within or adjacent to the concrete and is done to improve the performance of the concrete in service. Tendons may consist of single wires, multi-wire strands or threaded bars that

are most commonly made from high-tensile steels, carbon fiber or aramid fiber. The essence of prestressed concrete is that once the initial compression has been applied, the resulting material has the characteristics of high-strength concrete when subject to any subsequent compression forces and of ductile high-strength steel when subject to tension forces. This can result in improved structural capacity and/or serviceability compared with conventionally reinforced concrete in many situations. In a prestressed concrete member, the internal stresses are introduced in a planned manner so that the stresses resulting from the superimposed loads are counteracted to the desired degree. All the basic concepts were well explained by the speaker for the benefit of students.

GUEST LECTURE - 3 REPORT

"THE ARCHITECTURE EXPERIENCE AT THE UNIVERSITY" OF STRATHCLYDE"

(Dr. David Grierson, University of Strathclyde, UK

A guest lecture on "The Architecture Experience at The University of Strathclyde" was conducted on 18.11.2020 through virtual mode by the Civil Engineering Association along with Kongu School of Architecture. Dr. David Grierson, University of Strathclyde participated as a chief guest and delivered a lecture.

The speaker explained the higher education opportunities in United Kingdom for our students. He neatly explained the various courses offered in UK for Civil Engineering and Architecture students. He then explained about the facilities available in the University of Strathclyde which is the number one was ranked University in Scotland and third ranked University in the United Kingdom.

The University is teaching in a dynamic studio-based environment by professional practitioners and academics. They focus on engagement with local and international communities encouraging you to balance the practical realities of the world with innovative design. Their postgraduate degrees will help to enhance student's career prospects, cultivate a passion for chosen subject and develop innovative knowledge and skills. All these are essential attributes in today's highly competitive job market.

18/11/2020

Guest Lecture on "**Analytics and Insights - Walkthrough"** conducted on 18.11.2020 from 03.30 pm to 4.30 pm for the benefit of the students. Around 50 students have attended the program via Google Meet (Online Mode). The Guest Speaker Mr.U.Ajay Krishna, Data Product Manager, Alibaba group, Singapore has provided fruitful lecture about the Data Science Applications and overall opportunities related to this field. Also discussed the global opportunities and recent trends in the field. This seminar enabled the students to have industry exposure and practical knowledge about this field. Students are highly motivated since this seminar addressed all the insights of Data Science Applications and focused on how the industries are managing data.

Report (200 words Max)

Rajasubramaniam Muthusamy is a Chief Technical Director who has 7+ Years of Experience in The Field of Industrial Automation and 3+Years of Experience in The Field of Industrial Robotics. Diverged and unique Projects and Tech Handling knowledge has put him in the Current Project management. Industry 4.0 is a vision and concept in motion, with reference architectures, standardization and even definitions in flux. In essence, the technologies making Industry 4.0 possible leverage existing data and ample additional data sources, including data from connected assets to gain efficiencies on multiple levels, transform existing manufacturing processes, create end-to-end information streams across the value chain and realize new services and business models. The goal of Industry 4.0-enabled robotics is zero downtime and maximum efficiency. As robots use more sensors and become more digitally connected, they will become much less susceptible to disruptions Industry 4.0 and the Internet of Things is increasing the automation of previously manual tasks with a collection of real-time data, AI and device interconnectivity

BRIEF REPORT OF THE GUEST LECTURE

Date of the Programme	:	**21.11.2020**
Topic of the Guest Lecture	:	**Mutual funds**
Name of the Guest(s)	:	**Mr. R. Upply** Vice President Indusind Bank Ltd, Chennai
No. of participants	:	**116**

About the Programme:

The objective of the guest lecture was to create awareness among student investors and protect them from dubious investment campaigns and to inculcate right investment habits in mutual funds.

Mr. R. Upply, Vice President, Indusind Bank Ltd, Chennai started the session by addressing the students about the importance of money and the wise investment options and how to combat risk involved in investing. The objective was to expose students to real life scenarios of what they are studying in classrooms. Not only could they see what they are learning come alive but also became aware of the importance of early age investment for long term which would fetch them maximum returns. He spoke about the intertwined relationship between money, spending and investment. Furthermore, he gave information about investment options like stocks, mutual funds and the tool of Systematic Investment Planning (SIP) and gave some inputs regarding the risk of investment. He showed some calculations regarding interest.

He explained why it is important to invest in the mutual funds at an early age to get the maximum returns and the importance of investing in good companies in the market for long periods of time. Students also got to know about various investment solutions and how to make use of them for monetary benefits.

Acronyms:
VIRTUAL REALITY-VR
is the use of computer technology to create a simulated environment. Unlike traditional user interfaces, VR places the user inside an experience. Instead of viewing a screen in front of them, users are immersed and able to interact with 3D worlds
AUGMENTED REALITY-AR
is computer-generated content overlaid on a real world environment. Common applications of AR technology include video games, television, and personal navigation, though there are many other uses as well
MIXED REALITY-MR
is the merging of real and virtual worlds to produce new environments and visualizations where physical and digital objects co-exist and interact in real time.

Event Name: Webinar on Recent Development in IoT Date: 23.01.2021

The Informative webinar was organized by EIE association on the topic “Recent developments in IoT" on 23rd January,2021 from 10am to 11am through virtual mode. The speaker of the day was Mr.S.Shanmugavadivel, he is an alumnus of EEE department. He is the founder and Chief technical officer of IcOnt automations. The productive webinar started with a speech about our speaker and the importance of IoT in recent days by the head of the department, Dr.S.Vijayachitra. After her speech, the speaker of the day started to talk on the topic. He said many points which was apt for doing projects related with IoT. He also gave simple points about the topic and made us to think bigger. This was really an eye opener for students to know about the importance of IoT techniques. The ending part was with much gratitude.

Mr.S.Shanmugavadivel, Founder and CTO of IcOnT Automations, Oddanchattram delivered the webinar “Recent Development in IoT” on 23.01.2021

5. GUEST LECTURE ON POWER OF PROGRAMMING LANGUAGE

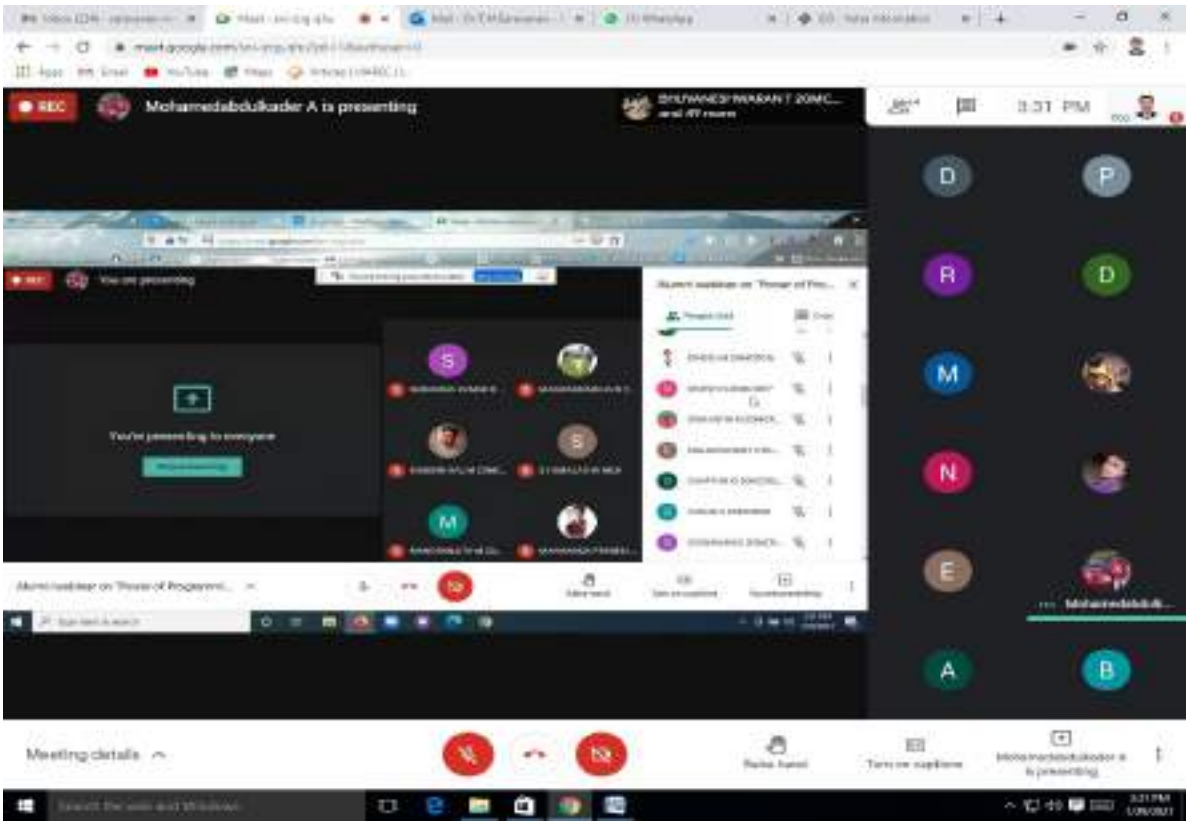

DATE: 29.01.2021

TOPIC: Power of Programming Language

CHIEF GUEST:Mr.Mohamed Abdul Kader
Senior Engineer
Gavs Technologies, Chennai.

OUTCOME OF THE PROGRAMME:

Association of Computer Applications (ACA) conducted a guest lecture on 29-Jan-2021 at 10.00 A.M via Google meet.We invited Mr.Mohamed Abdul Kader. He is a Senior Engineer at Gavs Technologies, Chennai and also he is our Alumni passed out in the year 2012. He has given the lecture about the use of programming language for development of software and product in industry. The program was followed by enlightening the students with the purpose and importance of programming language. The guest also emphasized on how these programming languages differ from the other languages. This comparative study helped students to get a clear idea about how the programming languages differ from each other and overall it was an interactive session.

Event Name: Webinar on Industrial Automation using PIC18F Microcontroller

Date: 06.02.2021

The ISoI Student's Chapter organized a webinar on Industrial automation using PIC18F Microcontroller on 06.02.2021 by Mr. M.Ranjith Kumar, Director of Crystal Clear Technology and Innovation, Coimbatore. The webinar was conducted with the presence of Dr.S.Vijayachitra, Head of the Department, Electronics and Instrumentation Engineering, Kongu Engineering College, Perundurai. The webinar was held for third – year students in the field of embedded system. The webinar provided the basic information of purposes of IC, Controller and Processor, UC&PC, PIC16F877a /18f Peripherals etc. The session was demonstrated on Proteus circuit for various application of PORT, LED glow and multipurpose of Tank Operation. In this webinar Real time practical problems are explained by using the Microcontroller.

Mr.M.Ranjith Kumar, Director, Crystal Clear Technologic & Innovation, Coimbatore delivered the webinar "Industrial Automation using PIC18F, Microcontroller" on 06.02.2021

About himself:

Completed Bachelor of Engineering in Computer Science and pursuing MBA in HULT university.

Extensive experience in IT infrastructure design and management with multiple technologies that spans over 11 years.

Started my career with Wipro as a developer and moved to Cognizant technologies as Azure Subject matter Expert. Now, working with EY as an Senior Lead Consultant – Ernst & Young.

I predominantly work with Microsoft Azure cloud in Advanced Data and Analytics.

Sport : I like paragliding and adventure sports a lot.

Interest : Saving native breed seeds, working with people in restoring lost temples and its traditions.

Hobbies : Organic Farming.

Currently, working on a pet project to get the advanced analytic portal developed for the farmers.

It uses advanced analytics to get the weather forecast, soil fertility, Crop yield using cloud technologies.

This will help farmers to choose the right breed of seeds for their environment to get the right yield .

Guest lecture on “Oracle PL/SQL with Query Tuning”

13.02.2021

Report

Guest Lecture on “Oracle PL/SQL with Query Tuning” conducted on 13.02.2021 from 10.30 am to 11.30 am for the benefit of the students. Around 120 students have attended the program via Google Meet (Online Mode). Mr.Sudharkar B, Principle Software Engineer, RxLogix has given a technical guest lecture on “Oracle PL/SQL with Query Turing”. Guest lecture started as per scheduled time and welcome address was given by student. Sudharkar provided technical speech about oracle with PL and SQL and its application in industry using Query Turning. It gives practical exposure to the students and helps the students to acquire the knowledge about current trends in industry. This guest lecture enables the students to explore query tuning.

KONGU Answering the Best

Guest Lecture on **"Microwave Processing in Food Technology"**

The chief guest has done various research and projects in the field of microwaves. He clearly demonstrated the various methods used for preserving food materials (fruits and vegetables). He also stated the under-utilized fruits that could be preserved to be consumed during non-seasonal occasions. He explained various drying methods used in food processing. The criteria to choose an approximate drying method for the particular foods have been explained along with the classification and uses of dryers. The needs to be met by the dryers when drying food products are described clearly and carried over his topic to the usage of microwaves. Types and categories of microwave heating are demonstrated. Usages and applications of using microwaves as drying medium is clearly stated. Treatments of non-homogenous materials are explained. Finally, he answered various questions proposed by the students on nutrition loss during microwave drying and the moisture content of foods.

Department of ECE organizes a 3-day kick starter session on introduction to data structure for the 2023 batch Students – placement perspective. This training is intended to improve the student's knowledge on the concept of data structures.The students approached the placement coordinators of our department to provide training to compete IT students and crack the coding round in interview sessions.

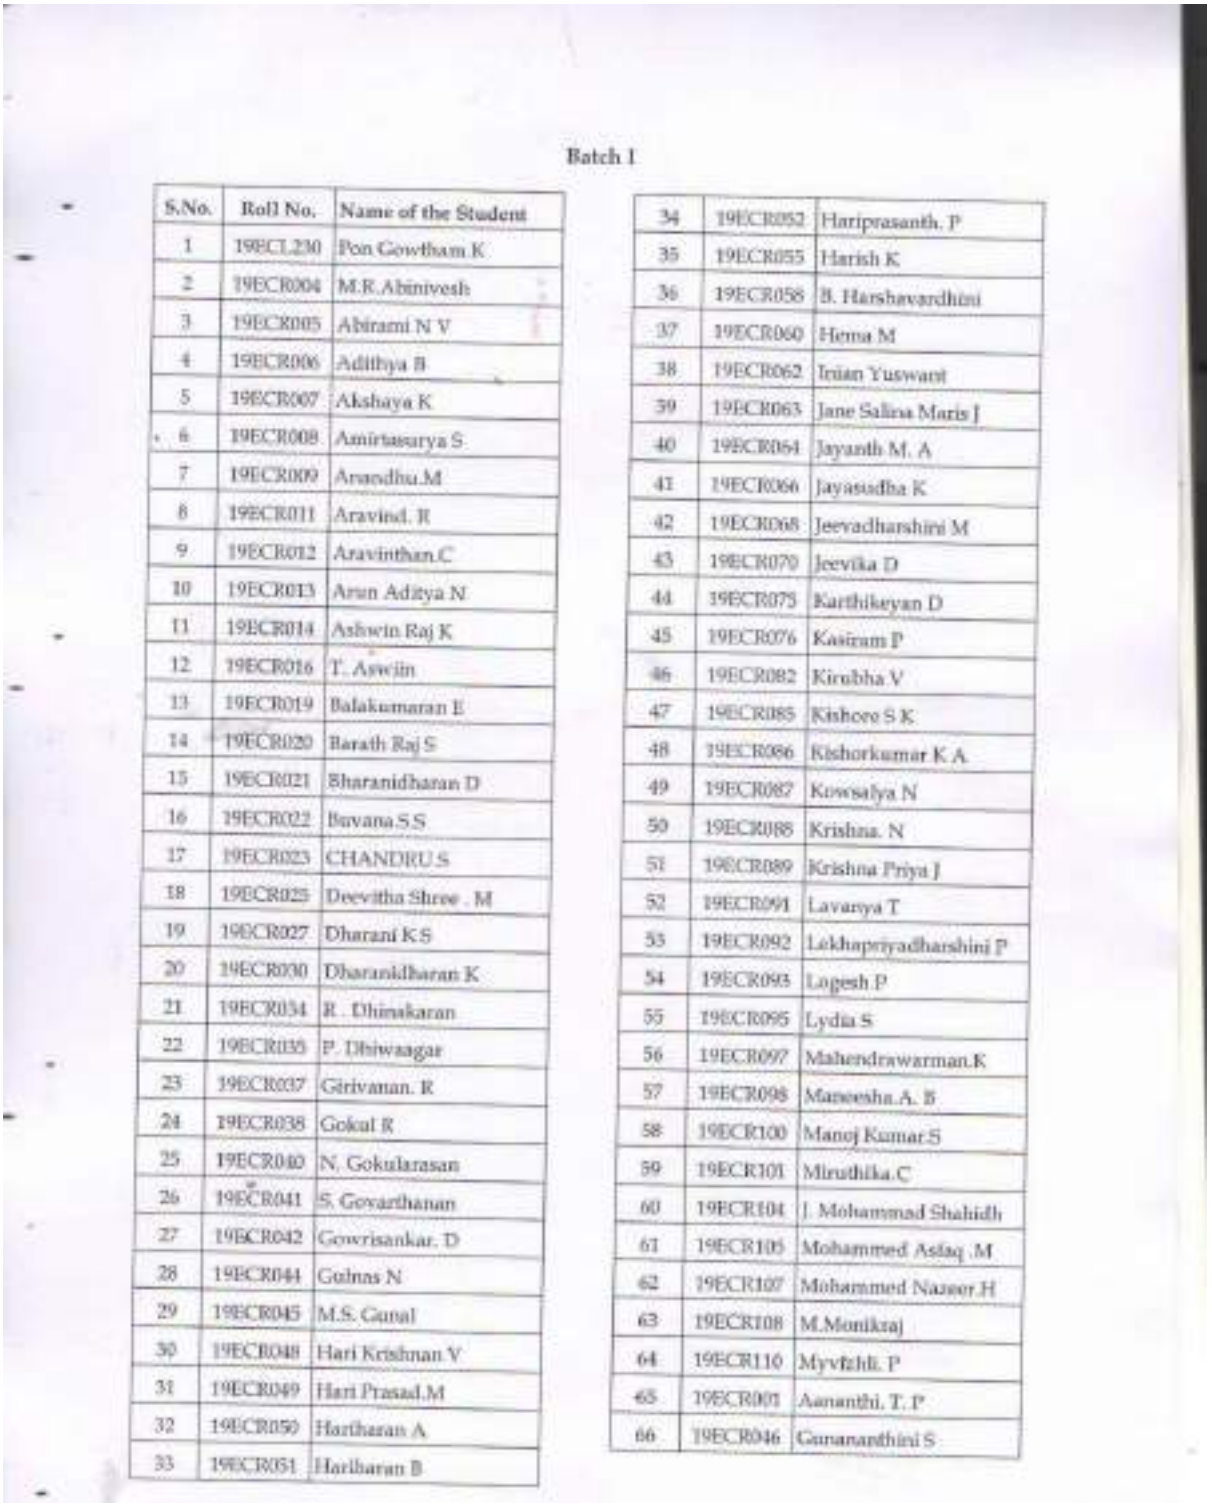

The training handled by the faculty Dr.P.Priakanth professor, Computer science engineering, His are of interest are Adohoc Networks, Wireless sensor networks. He has Depth knowledge on Data structures and handled many sessions on introductory of Data structures in placement perspective with the help of placement team – ECE, which helps our students to crack the coding round in interview sessions.

Dear Sir/ Madam / Students Community,

Greetings from the Department of Computer Technology-UG, Kongu Engineering College(Autonomous), Perundurai, Tamil Nadu.

We are pleased to invite to an Online National Level Technical symposium, CYNOSURE '21 on 26th February 2021 for students of Computer Science, Computer Applications and Information Technology students.

CYNOSURE provides a platform to showcase the students' talents and technical skills in the field of Computer Science and Information Technology.

Kindly find visit **cynosure21.kongu.edu** to get more details about the events, rules and registration and refer the brochure attached. We earnestly request the faculty members to encourage your students to participate actively in CYNOSURE and make it as a memorable event.

KONGU Aiming the Best

Guest Lecture on **"Plant Based Diets: A Sustainability Perspective"**

The guest explained clearly about the plant alternates for meat and animal food products. Sustainability in using plant alternates was demonstrated by her. Environmental impacts of consuming animal products have been demonstrated. They include occupation of land, production of methane, requirements of water to produce milk and emission of greenhouse gases. Reductions of these effects by consuming plant based alternates are explained. Classification of diets has been explained and clearly stated each classification. Those are meat eaters, one who eats meat 3-4 times a week, Flexitarians, Vegetarians and Vegans. Food products used as plant alternates was stated by the guest and explained particularly. We have gained a wholesome knowledge about plant based diets as an alternate for animal products.

GUEST LECTURE ON ROBOTIC PROCESS AUTOMATION

DATE: 04.03.2021

TOPIC: Robotic Process Automation

CHIEF GUEST: Mr. G.Pranesh,
System Engineer,
Infosys, Mysore
Karnataka 570027.

OUTCOME OF THE PROGRAMME:

Our Association Guest Lecture on the topic 'Robotic Process Automation' was held for our students to get an insight in the field of automation on 04.03.2021 at 11.00 A.M via Google meet. The lecture was given by Mr. G.Pranesh, System Engineer, Infosys, Mysore. Robotic Process Automation is the technology that allows anyone today to configure computer software, or a "robot" to emulate and integrate the actions of a human interacting within digital systems to execute a business process. He also explained about what are things should be noticed and things need to be trained in and before placements. And he explained about some of the tools which help to do automation and motivated the students to improve their knowledge and skills.

EXPERTISE OF THE SPEAKER: Mr. G. Pranesh

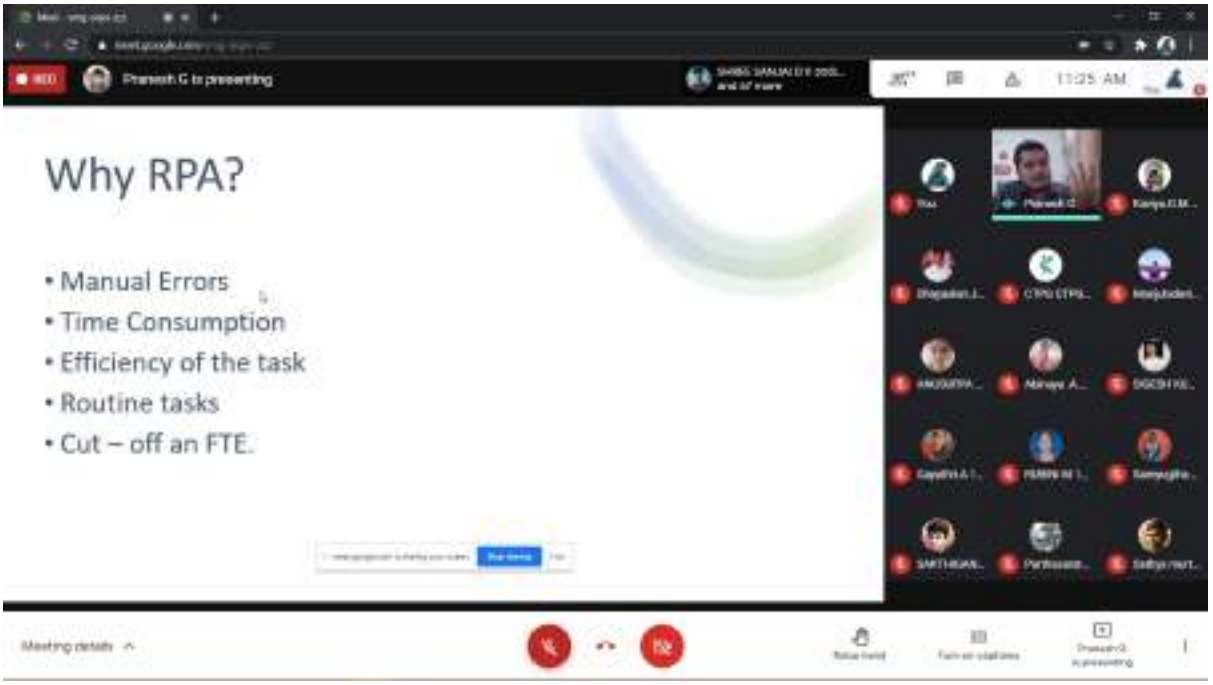

He is a System engineer,Infosys, Mysore. He has our proud alumni of our department. He pursued his MSc degree in the period of 2014-2019. He was invited as a chief guest because, he has a wide Knowledge in automation and he can clearly explain the students how to start the practice in various fields.

WEBINAR ON "GEOTECHNICAL ENGINEERING – AN OVERVIEW"

Date: 13.03.2021

Civil Engineering Association organized a webinar on "Geotechnical Engineering – An Overview" on 13.03.2021 for students of Civil Engineering. Dr. G. Ramasamy, Retired Professor from IIT Roorkee, presently working as a distinguished professor in Builders Engineering College delivered the special lecture.

Dr. G. Ramasamy, explained in detail about the basic concepts of geotechnical engineering, its importance in the field of civil engineering and job opportunities related to it. From a scientific perspective, geotechnical engineering largely involves defining the soil's strength and deformation properties. Clay, silt, sand, rock and snow are important materials in geotechnics. Geotechnical engineering includes specialist fields such as soil and rock mechanics, geophysics, hydrogeology and associated disciplines such as geology. Geotechnical engineering and engineering geology are a branch of civil engineering.

The specialism involves using scientific methods and principles of engineering to collect and interpret the physical properties of the ground for use in building and construction. Its practical application, e.g. foundation engineering, has come to require a scientific approach. The term geotechnics is currently used to describe both the theoretical and practical application of the discipline. All these concepts were presented by the speaker.

Guest Lecture on **"Career Transformation from Electronics to Datascience"**

The guest started with an introduction to data science. He explains about how to get into data science from electronics background and how to break into data science roles in other countries. He elaborated the importance of data science in business and in current affairs. Also, he described the things to be followed in switching form one domain to other domain. He has also touched on several key aspects of being a data scientist, including the importance of technical skills, domain knowledge and a continuous learning mind-set. He finally concluded that students should select a suitable job and make that job as a passion so that one can work with happiness.

Kongu Engineering College, Perundurai

Department of Engineering

Event Name: Guest Lecturer.

Date: 13.03.2021

On March 13, 2021, the Mechanical Engineering Association of Kongu Engineering College, Perundurai, hosted an informative guest lecture. Mr. Prabhu Palanisamy was the day's speaker. He was meant to give a presentation on " INDUSTRY 4.0" He was excellent in that area and began explaining things in a way that pupils could understand. Because it was more fascinating and easy to learn, the pupils were more interested in listening to his words. The day came to a close with some useful information. We recently concluded the session with a heartfelt expression of gratitude to him and the kids who attended.

Mr. Prabhu Palanisamy, Senior Analyst, Ford Motor Private Limited. delivered the Guest Lecture “INDUSTRY 4.0” on 13.03.2021.

RESOURCE PERSON: Mr. Antony J I X, PhD, Vice President, Ingredient Excellence, Olam Innovation Centre, Bangalore.

ZELOS is a National Technical Symposium Event.This occasion helps students organizing various self-learning activities. By means of their views and ideas and by interacting with experts from reputed institutes and industries. This ground also helps students to know an idea about the recent trends in food processing. The event ZELOS assures to give the best technical knowledge in current scenario based on food technology and processing for the student community and people from various processing backgrounds.

Our resource person Mr. Antony J IX, PhD, Vice President, Ingredient Excellence, Olam Innovation Centre, Bangalore. R&D is an essential function for many businesses. Launching new offerings or improving existing ones is a way for a business to remain competitive and make profit. Benefits like increase market participation, cost management benefits, advancements in marketing abilities and trend matching. These are all reasons companies invest in R&D. It can help a company follow or stay ahead of market trends and keep the company relevant.

Following his address technical and non-technical events were conducted to encourage all students to actively participate in it which includes Oral presentation, Idea presentation, and Poster presentation. There are more than 60 participants from various colleges across Tamilnadu and won cash prizes.

Guest lecture on “Rest Services”

11.09.2021

Report

Guest Lecture on “Rest Services” conducted on 11.09.2021 from 10.30 am to 11.30 am for the benefit of the students. Around 140 students have attended the program via Google Meet (Online Mode). Mr. Ramvivek, IBM integration consultant, Teknoturf Info services Pvt Ltd., Coimbatore has given a technical guest lecture on “Rest servies”. Guest lecture started as per scheduled time and welcome address was given by student. Sudharkar provided technical speech about Rest Services and its application in industry. It gives practical exposure to the students and helps the students to acquire the knowledge about current trends in industry.

Name of the Capacity Development and Skill Enhancement programme: Awareness of trends in technology -Web Development Bootcamp Phase-1

Year of Implementation: 18/09/2021

Number of students enrolled:45

Web Development Bootcamp

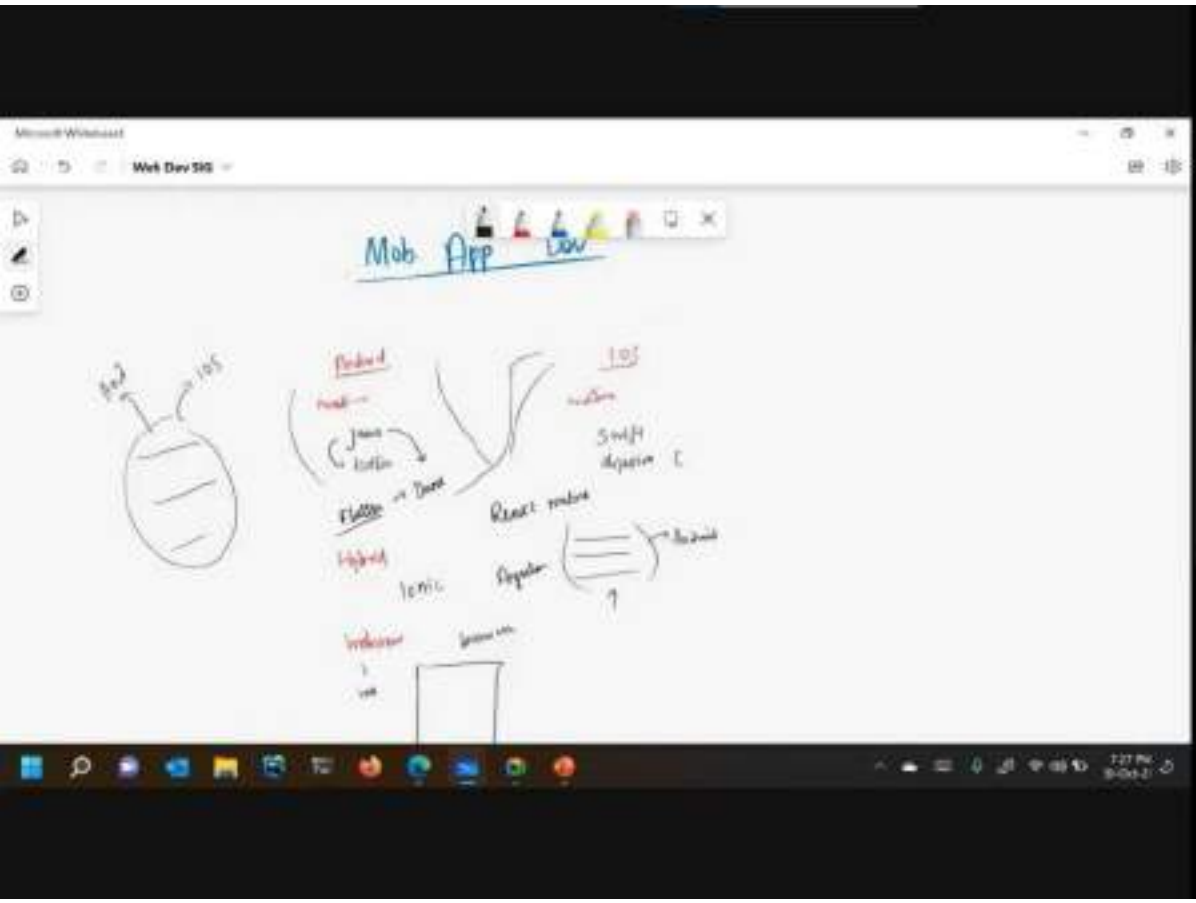

“The road to success and the road to failure are almost exactly the same. “

This web development bootcamp was conducted on 18th september, 2021(Saturday), by our final year student Mr. S Abinash. The Computer science and Engineering Association hosted and organised the bootcamp for the second year students. Nearly 50 students participated in this bootcamp and gained knowledge from the latter. Our instructor Mr. S Abinash is the Associate software trainee in Presidio cloud solutions and is an experienced full stack developer who has developed many other successful websites for the college and also other firms. The topics covered in the bootcamp were the basics HTML, CSS, JS, PHP and HOSTING. The bootcamp also consisted of an effective hands on session and polling sessions where the students were able to implement the learnt concepts and test their knowledge. Students who participated were very much interested and eager to learn more about web development and were very interactive with the instructor and the organisers. Overall the event was a smashing success and we also received really great feedback from the participants.

Name of the Capacity Development and Skill Enhancement programme: Awareness of trends in technology -Web Development Bootcamp Phase-2

Year of Implementation: 25/09/2021

Number of students enrolled:51

Web Development Bootcamp

“The road to success and the road to failure are almost exactly the same. “

This web development bootcamp was conducted on 18th september, 2021(Saturday), by our final year student Mr. S Abinash. The Computer science and Engineering Association hosted and organised the bootcamp for the second year students. Nearly 50 students participated in this bootcamp and gained knowledge from the latter. Our instructor Mr. S Abinash is the Associate software trainee in Presidio cloud solutions and is an experienced full stack developer who has developed many other successful websites for the college and also other firms. The topics covered in the bootcamp were the basics HTML, CSS, JS, PHP and HOSTING. The bootcamp also consisted of an effective hands on session and polling sessions where the students were able to implement the learnt concepts and test their knowledge. Students who participated were very much interested and eager to learn more about web development and were very interactive with the instructor and the organisers. Overall the event was a smashing success and we also received really great feedback from the participants.

IEEE COMPUTER SOCIETY CHAPTER SBC29741

Webinar on Introduction to Multiple Access Techniques in 5G Networks

EVENT POSTER:

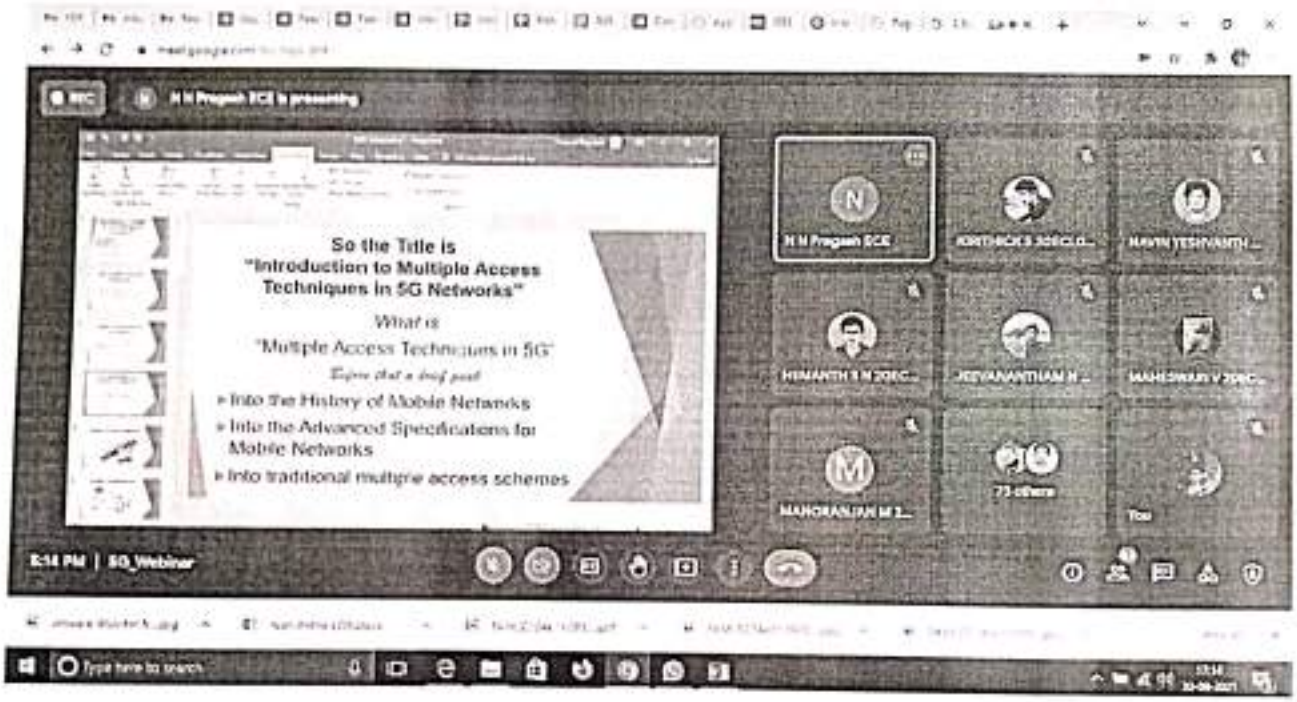

DATE: September 30, 2021
TIME: 5: 00 PM to 6: 00 PM IST
TOPIC: Introduction to Multiple Access Techniques in 5g Networks
SPEAKER: Prof. N N. Prakash,
Associate Professor/ECE
Kongu Engineering College,
Perundurai

About the Programme

This webinar discuss the topics Includes orthogonal and non-orthogonal waveforms for 5G new radio and beyond: CP-OFDM, UF-OFDM, f-OFDM, WOLA, FBMC, and GFDM. Furthermore, webinar discusses NOMA via the power domain (fundamentals, clustering, power allocation, experimental trials, etc.) and outlines random access techniques applications and use cases of 5G networks (eMBB, URLLC, mMTC, IoT, and V2V), as well as challenges and future directions in multiple access, random access, and waveform design

HOD 5/10/21

Guest Lecture on Artificial Intelligence and Deep Learning

DATE: 01.10.2021

TOPIC: Artificial Intelligence and Deep Learning

CHIEF GUEST: Ms. T.Dhivya Bharathi

Software Engineer,

Lakeba IT solutions Private Limited, Coimbatore.

Outcome of the programme:

The field of artificial intelligence is essentially when machines can do tasks that typically require human intelligence. Deep learning is a subset of machine learning where artificial neural networks, algorithms inspired by the human brain, learn from large amounts of data. Specific applications of Ai include expert systems, natural language processing, speech recognition and machine vision. The guest delivered the clear concepts behind Artificial intelligence and machine learning. Students learnt the use of AI to improve efficiencies and augment human capabilities. She also inspired the students to perform well in the industry.

Expertise of the Speaker: Ms.T.Dhivya Bharathi:

She had completed her M.Sc Software Systems at Kongu Engineering College. She has been into the Information technology industry for around 2 years. She is working as both developer and researcher in one of the advanced technology AI machine learning applications. She withholds the responsibility for the overall quality of product from a code and architecture standpoint. She also collaborates well with the business product owners to define the requirements and customers.

Title: Introduction to pre-engineering building structures.

Participants: 80

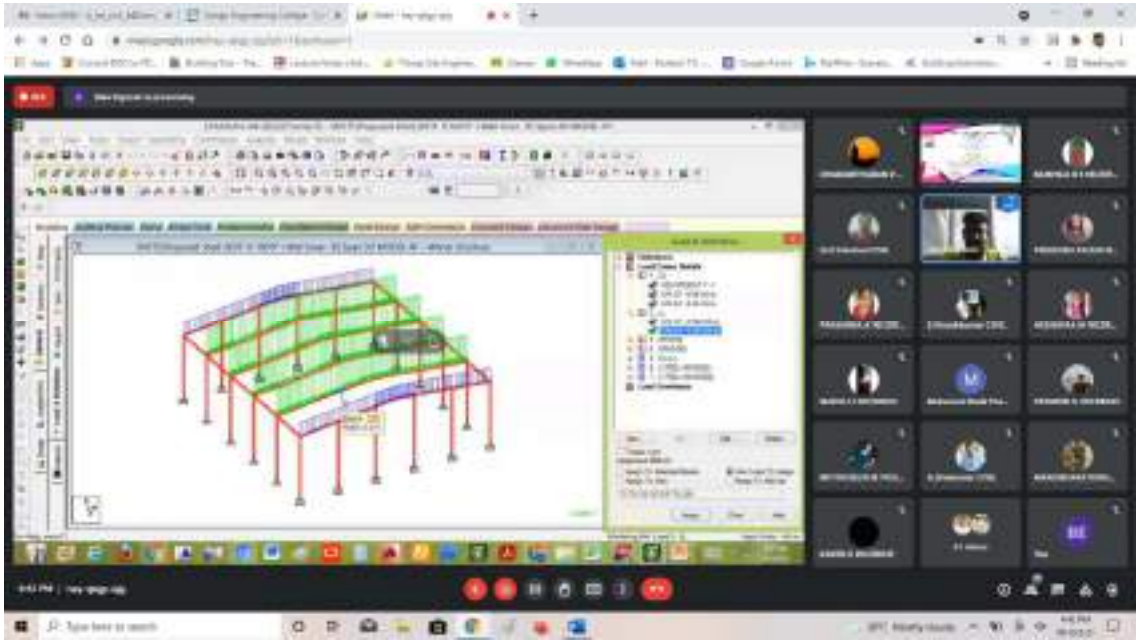

A guest lecture on introduction to pre-engineering building structures was conducted 09.10.2021 through virtual mode. Ms.K.Prasanna welcomed the gathering. Dr.P.S.Kothai, HoD/Civil Engineering addressed the meeting. Mr. U. Balavignesh, Assistant professor/ Civil, Coimbatore Institute of Technology, inaugurated the IGS-KEC students' chapter for the year 2021-2022 and explained Pre-Engineered Buildings (PEBS). The summary of his address are as follows. The building components are manufactured at a factory and assembled on site. Usually PEBs are steel structures and can be alternative to conventional structural steel buildings. Pre-engineered metal buildings (PEMB) use a combination of structural steel framing system, metal roofing system wall panels of varying materials. In pre-engineered building assembly components are done at the factory and the building components are brought to the site in knock down condition. An efficiently designed pre-engineered building can be lighter than the conventional steel buildings by upto 30% lighter weight equates to less steel and potential price savings in structural framework. To accurately design a pre-engineered building, engineers should consider the clear span between bearing points, bay spacing, roof slope, live loads, dead loads, collateral loads, wind uplift, deflection criteria, internal crane system and maximum practical size and weight of fabricated members. All components of the design assembly PEB system are specially designed to act together as a system for highest efficiency. PEB designs are revised regularly to the actual field conditions and by various country codes, which resulted in improved standardized designs leading to the high performance of structures. He further cleared the doubts of faculty members and students. Mr. S. Vinodhkumar, IGS Faculty coordinator delivered vote of thanks.

GUEST LECTURE - REPORT

"THE ROLE OF AN ARCHITECT IN A BUILDING CONSTRUCTION"

(Ar. UMA CHAKKRAVARTHY, Director, Studio Modules, Chennai)

The **C**ivil **E**ngineering **A**ssociation of Kongu Engineering College organized a Guest lecture on "THE ROLE OF AN ARCHITECT IN A BUILDING CONSTRUCTION" on 11th October 2021 from 06.30 PM – 07.30 PM in virtual mode. The speaker of the guest lecture is Ar. UMA CHAKKRAVARTHY, Director, Studio Modules, Chennai.

The Guest lecture started at 6.30 PM with a devotional prayer song. The welcome address was provided by the Secretary followed by HOD's address. The chief guest was introduced and invited by the Technical Head. Then the session was taken over by the Chief Guest. He provided a clear picture about:

WHAT IS ARCHITECTURE?

This is the mother of all arts. Here we use drawings without visiting site. Civil engineering and architecture depends on each other.

WHO IS AN ARCHITECT?

They have to design portions includes spaces, outlook. Have to understand client needs. Also to rearrange the plans if there are any modifications.

STUDIO MODULES

- They're team of Architects, Engineers and interior designers to give best.
- Their concern is to provide high quality, cost effective, innovative designs, etc.
- Their engineering team has enormous experience.
- Their motto is about

1. Architectural Excellence

2. Energy Conservation

3. Cost Control

4. Turnkey

They're working on:

- Domestic & commercial building designs
- Industrial building designs
- Master planning & DPR
- Valuation & Arbitration

Stakeholders in the Construction Industry:

1. Direct stakeholders
2. Indirect stakeholders

Owner Contracted Consultants:

1. Architect
2. Civil
3. Geotechnical
4. Landscape

Architect Contracted Consultants:

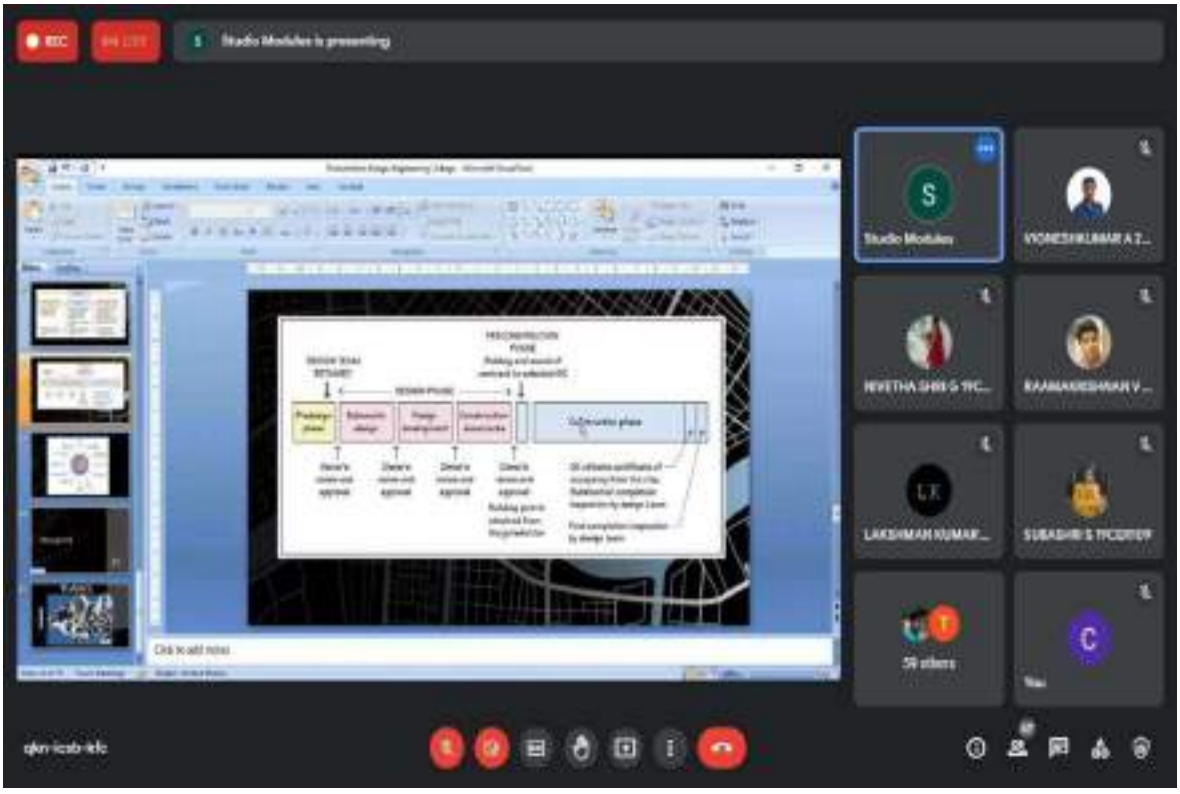

1. Structural
2. MEP
3. Others

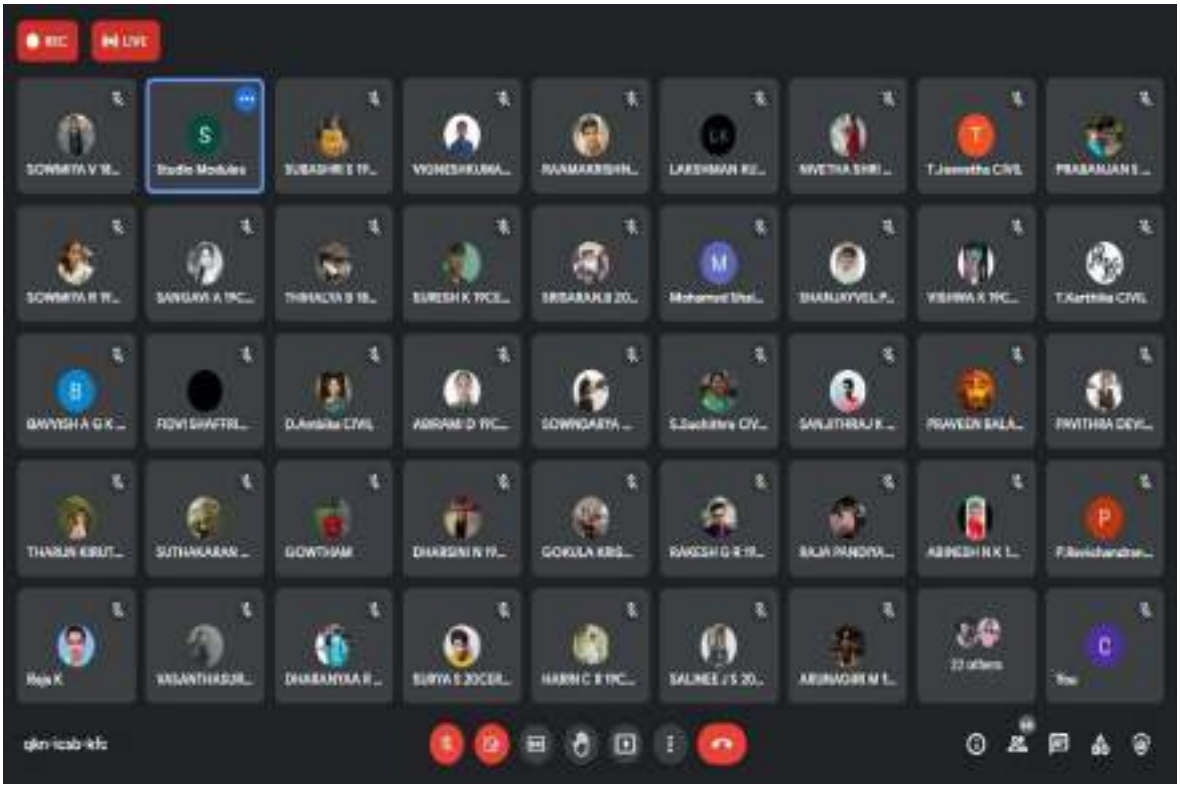

Design Phase:

1. Schematic Design stage - overall concept
2. Design Development stage - developing details
3. Construction Document stage - finalized

The program was attended by Second, Third and Final year students of the Civil Engineering department. The lecture was very useful for budding engineers and a motivation for those who ought to choose their career in Architectural design. The valuable occasion ended, showing gratitude to everyone with the vote of thanks by the Treasurer.

DATE: October 15, 2021

TIME: 6: 00 PM to 6: 45 PM IST

TOPIC: IEEE Computer Society Scholarships Webinar

SPEAKERS: Dr. Joseph Auxilius Jude,
Associate Professor/ECE
Kongu Engineering College,
Perundurai

About the Programme

This webinar focuses on IEEE CS scholarship programmes offered to the undergraduate and graduate students in electrical or computer engineering, computer science, or a well-defined computer related field of engineering who are active members of a student branch or chapter is eligible. Undergraduate students must be in the final two years of an undergraduate program. Prime legibility for scholarship is student should have membership for at least three (3) months prior to the application deadline is required. Furthermore, selected winners will serve as IEEE Computer Society Student Ambassadors. Duties will include collecting and disseminating information to student branches or student branch chapters in their region and serving as a liaison between the IEEE Computer Society Member and Geographic Activities Board and student members in their region.

GUEST LECTURE - REPORT

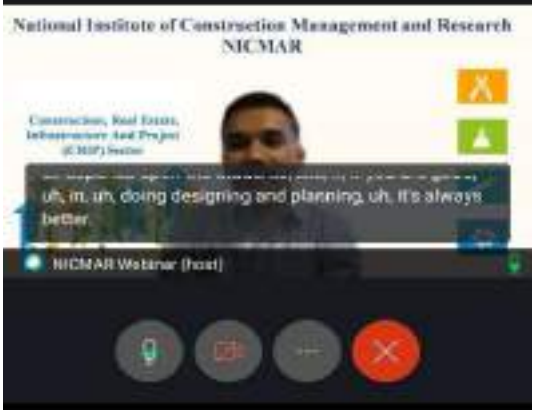

"OPPORTUNITIES IN CONSTRUCTION, REAL ESTATE, INFRASTRUCTURE AND PROJECT (CRIP) SECTOR"

(Dr.Tushar Jadav, Associate Professor,NICMAR,Pune)

The Civil Engineering Association of Kongu Engineering College organized a guest lecture on 21st October 2021 in virtual mode. The speaker of the guest lecture was Dr.Tushar Jadav, Associate Professor, NICMAR, Pune. He gave his full inputs to the students about Opportunities in Construction, Real Estate, Infrastructure and Project (CRIP) Sector.

The lecture started at 11.00 AM sharply. The program was attended by Final year students of the Civil Engineering department. He listed out the importance of learning theory, construction inputs and characteristics, market rules and regulations. The Professor lectured about the steps involved in product based approaches and its specializations, investment in technology and human resources. He mentioned the new materials in various fields and digitalization of products and processes. Our Chief Guest talked about NICMAR (National Institute of Construction Management and Research) since he is heading the Real Estate and Urban Infrastructure Management of the institute. NICMAR received UNDP grant which enabled the Institute to involve eminent academics from MIT in USA,ILO,IIMA and other institutes in India along with eminent practitioners from India. He also mentored the students on how to achieve their goal with their maximum potential by delivering highly effective engaging & personalized training with quality and excellence. He inspired many students with his experimental talks through this session.

"An insight on Project Development and Paper Writing"

23/10/2021

Guest Lecture on "An insight on Project Development and Paper Writing" conducted on 23.10.2021 from 09.00 am to 10.30 am for the benefit of the students. Around 150 students have attended the program via Google Meet (Online Mode). The Guest Speaker Dr. C. Daniel, Indian Institute of Technology Delhi has provided fruitful lecture about the Project Development and Paper Writing and overall opportunities related to this field. Also discussed the global opportunities and recent trends in the field. This seminar enabled the students to have practical knowledge about how to write a paper. Students are highly motivated since this seminar addressed to develop a project and writing a paper related to their fields.

ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

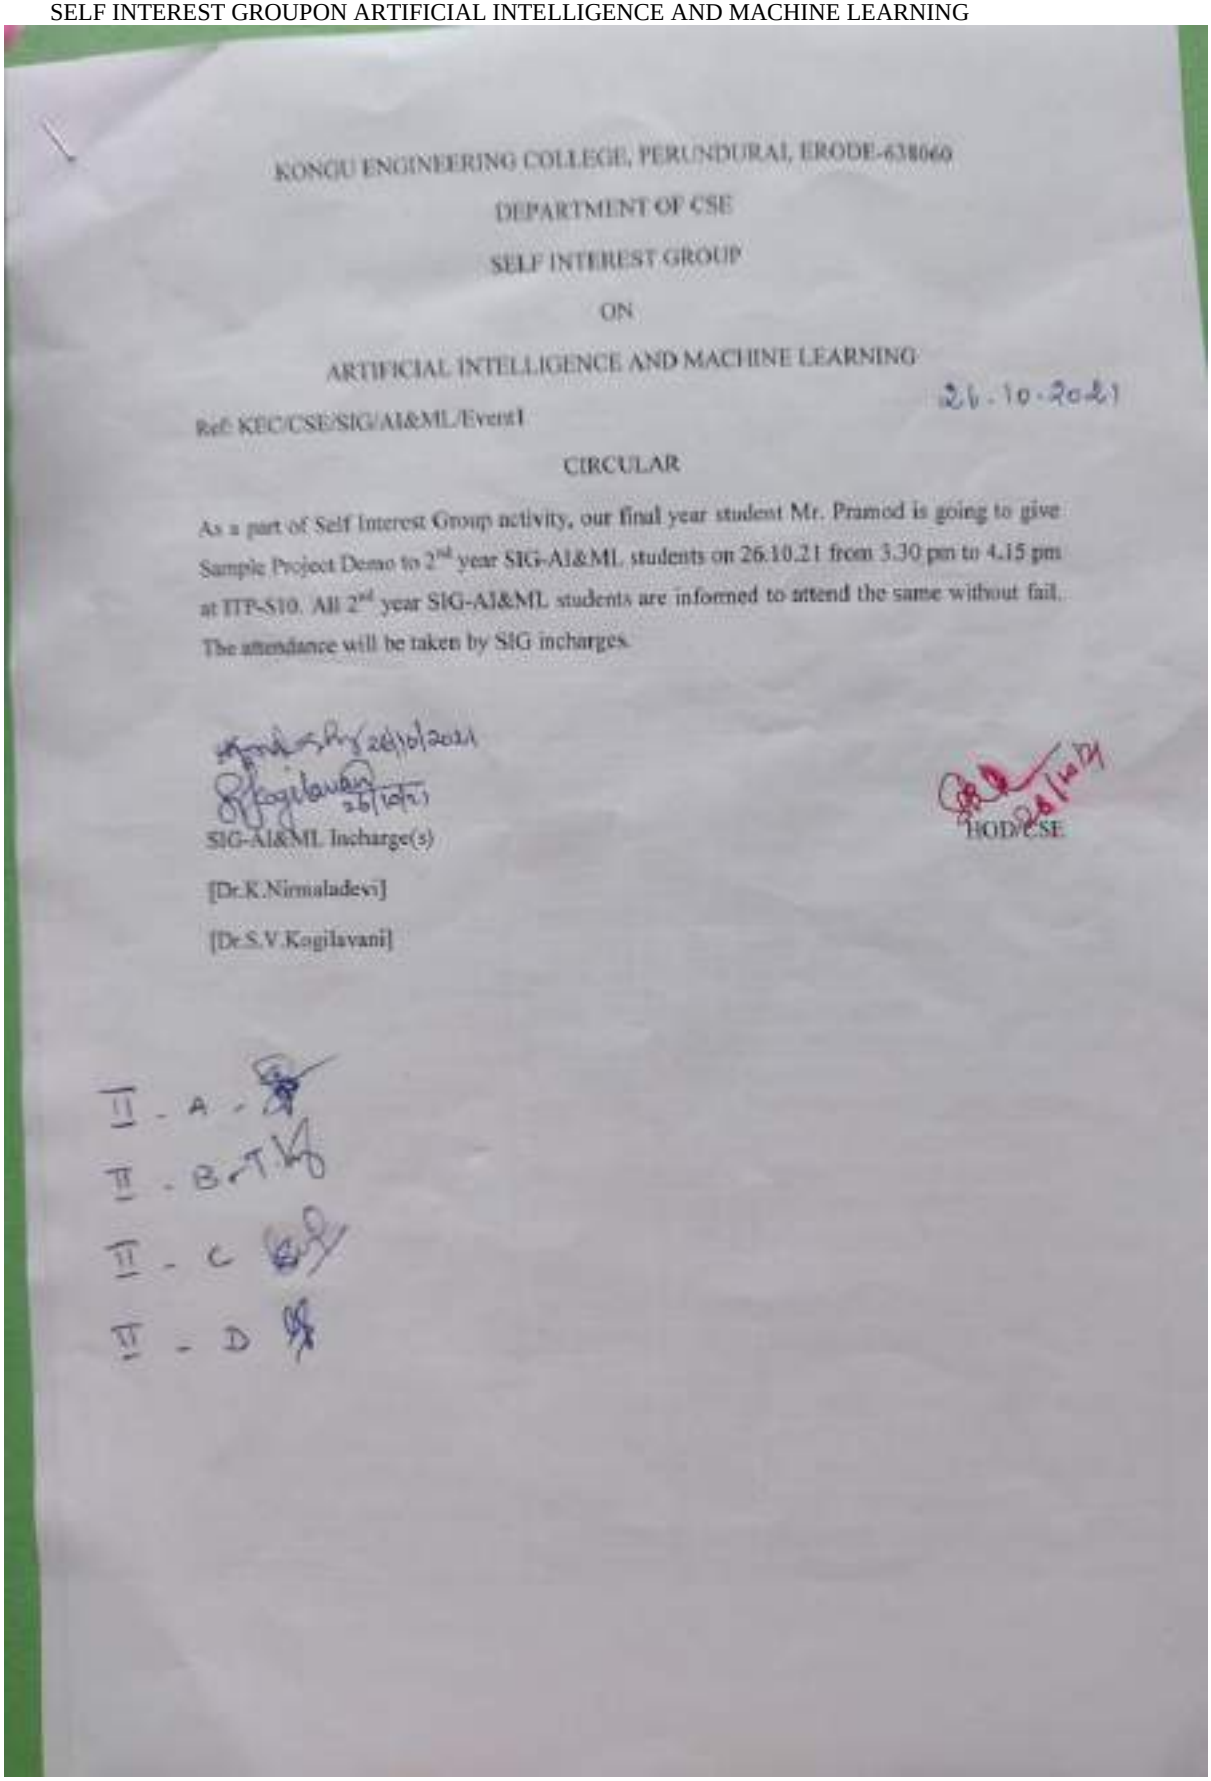

ACTIVITY REPORT

As a part of Self Interest Group activity,

The first event was conducted for second year SIG-AI&ML students on 26.10.21 from 3.30 pm to 4.15 pm at ITP-S10. During the event, our final year student Mr. Pramod was gave Sample Project Demo on working with datasets and various machine learning algorithms. He demonstrated various ways to collect datasets from kaggle, UCI repository. After that gave demo on taking dataset, applying preporcesssing, applying machine learning algorithms like naïve bayes, SVM, Regression. Finally he explained about various ways to measure the performance of algorithms using measures like accuracy, precision, recall and f-measure. This session is eye opening session for the students.

CIRCULAR

As a part of Self Interest Group activity, our final year student Mr. Pramod is going to give Sample Project Demo to 2nd year SIG-AI&ML students on 26.10.21 from 3.30 pm to 4.15 pm at ITP-S10. All 2nd year SIG-AI&ML students are informed to attend the same without fail. The attendance will be taken by SIG incharges.

27.10.2021

Report

Guest Lecture on “Kubernetes” conducted on 27.10.2021 from 11.15 am to 12.15 am for the benefit of the students. Around 100 students have attended the program via Physical mode. Mr. M. Thangadurai, Cloud Domain Architect, Nokia Networks Pvt Ltd, Chennai has given a technical guest lecture on “Kubernetes”. Kubernetes, also known as K8s, is an open-source system for automating deployment, scaling, and management of containerized applications. It groups containers that make up an application into logical units for easy management and discovery. Kubernetes builds upon 15 years of experience of running production workloads at Google, combined with best-of-breed ideas and practices from the community. Guest lecture started as per scheduled time and welcome address was given by student. Thangadurai provided technical speech about Kubernetes and its application in industry. It gives practical exposure to the students and helps the students to acquire the knowledge about current trends in industry.

GUEST LECTURE - REPORT

"ENVIRONMENTAL MONITORING MODELING AND IMPACT ASSESSMENT FOR SINGAPORE WATERS"

(Dr.Sundarambal Palani, Research Scientist,Singapore)

Civil **E**ngineering **A**ssociation of Kongu Engineering College organized a Guest lecture on **"ENVIRONMENTAL MONITORING MODELING AND IMPACT ASSESSMENT FOR SINGAPORE WATERS"** on 30th October 2021 from 09.00 AM – 10.30 AM in virtual mode. The speaker of the guest lecture was Dr. SUNDARAMBAL PALANI.

The Guest lecture started at 9.00 AM with a devotional prayer song. The welcome address was provided by the Secretary followed by HOD's address. The chief guest was introduced and invited by the Additional Secretary. Our Chief Guest started that Singapore mainland is used for industries urban development. Development of shore land focuses on expansion of marine-related industries, commercial revitalization, exploitation of new potentials and increase in public access. Environmental issues on some countries were reported along with key causes. Also integrated water system and characteristics of surface water were explained.

FACTORS AFFECTING WATER:

- Internal/external forces, natural and man-made forces
- Climate/weather
- Global phenomena
- Human related activities.

POLLUTION SOURCES:

- Direct outfalls / inputs into coastal, river regions
- Oil spills
- Nuclear and industrial wastes
- Agricultural pesticides and fertilizers, etc.

NUTRIENTS SOURCE:

Point source:

- Discrete and identifiable location
- Easy to find loads and impacts

Distributed sources:

- Diffuse and highly variable
- Challengeable to determine

ENVIRONMENTAL MONITORING:

This is the study of environmental complexity related to polluting events. It composed of tools and techniques to identify analyze and establish parameters. This is based on different test and techniques to know about risk levels. Also to control pollution level and identify trends.

TYPES:

- Air quality
- Water quality
- Biodiversity

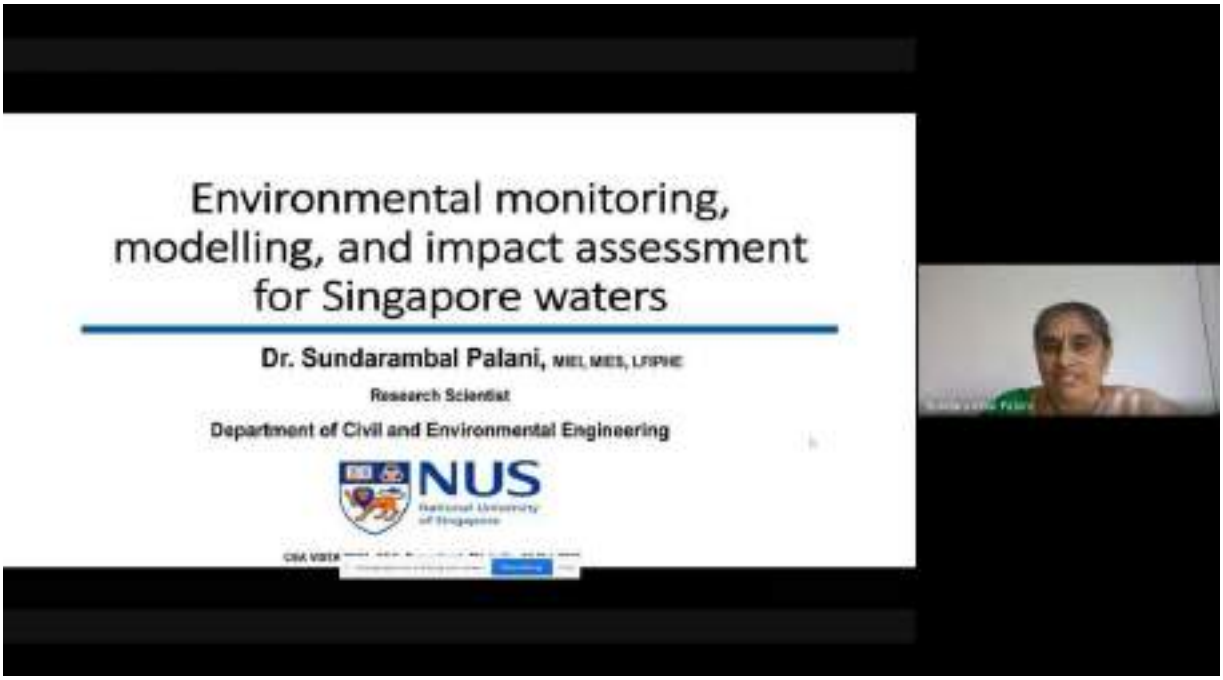

ENVIRONMENTAL MODELING:

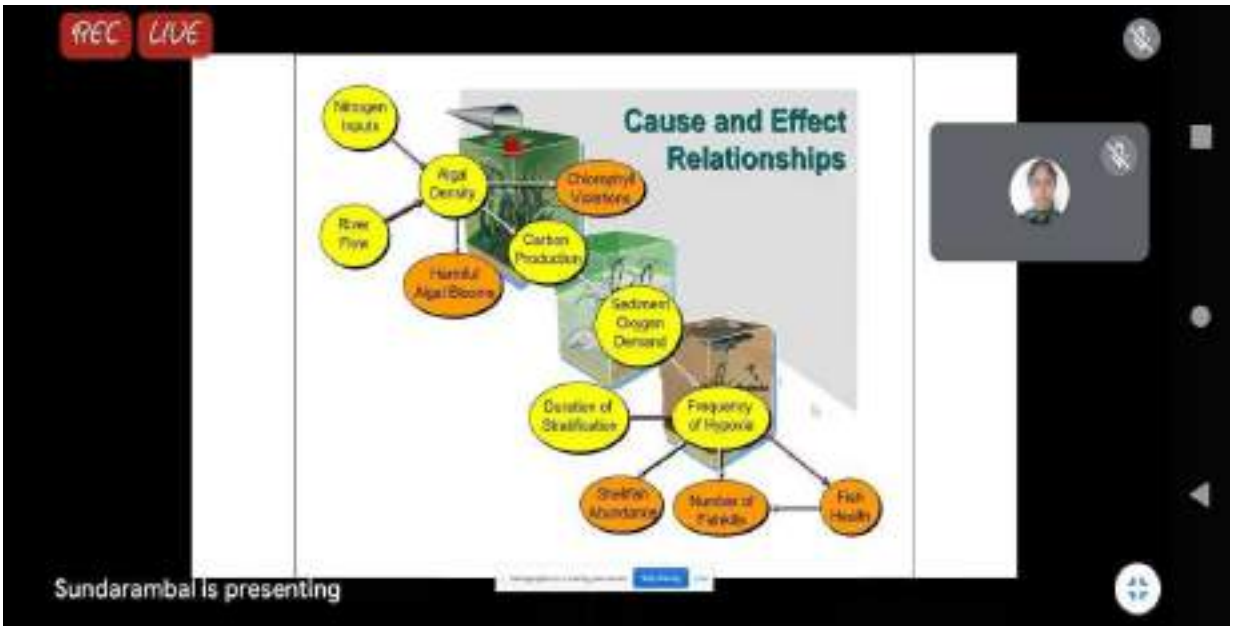

One must predict and learn to control it for benefit of mankind and marine life. There are many available methods for it.

CONCLUSION:

Importance of water quality management by EIA is stressed in this region. Calibrated model continuously assists in management and protection of Singapore's water.

The program was attended by Second, Third and Final year students as well as Faculties of the Civil Engineering Department. The lecture was very useful for budding engineers and a motivation for those who ought to choose their career in Environmental engineering .The valuable occasion ended, showing gratitude to everyone with the vote of thanks by the Treasurer.

ACTIVITY REPORT

As a part of Self Interest Group activity,

The first event was conducted for second year SIG-AI&ML students on 26.10.21 from 3.30 pm to 4.15 pm at ITP-S10. During the event, our final year student Mr. Pramod was gave Sample Project Demo on working with datasets and various machine learning algorithms. He demonstrated various ways to collect datasets from kaggle, UCI repository. After that gave demo on taking dataset, applying preporcesssing, applying machine learning algorithms like naïve bayes, SVM, Regression. Finally he explained about various ways to measure the performance of algorithms using measures like accuracy, precision, recall and f-measure. This session is eye opening session for the students.

SIG Data Lake (Data Science) Industry Guest Lecture

Mr.Manoj Raj- Guest Lecture -Report

Date: 30.10.2021

Data science is a multi-disciplinary field that uses scientific methods, processes, algorithms, and systems to extract knowledge and insights from structured (labeled) and unstructured (unlabeled) data. It is the future of Artificial Intelligence (AI) and a necessity of the future to make things easier and more productive. In simple terms, data science is the discovery of data or uncovering hidden patterns (such as complex behaviors, trends, and inferences) from data. Moreover, Big Data analytics/data analytics are the analysis mechanisms used in data science by data scientists. Several tools, such as Hadoop, R, etc., are used to analyze this large amount of data to predict valuable information and for decision-making. Note that structured data can be easily analyzed by efficient (available) business intelligence tools, while most of the data (80% of data by 2020) is in an unstructured form that requires advanced analytics tools. But while analyzing this data, we face several concerns, such as complexity, scalability, privacy leaks, and trust issues. Data science helps us to extract meaningful information or insights from unstructured or complex or large amounts of data (available or stored virtually in the cloud).

FEATURES:

- concept of data science, tools, and algorithms that exist for many useful applications
- Provides many challenges and opportunities in data science and data analytics that helps to identify research gaps or problems
- Identifies many areas and uses of data science in the smart era
- Applies data science to agriculture, healthcare, graph mining, education, security, etc.

ACTIVITY REPORT

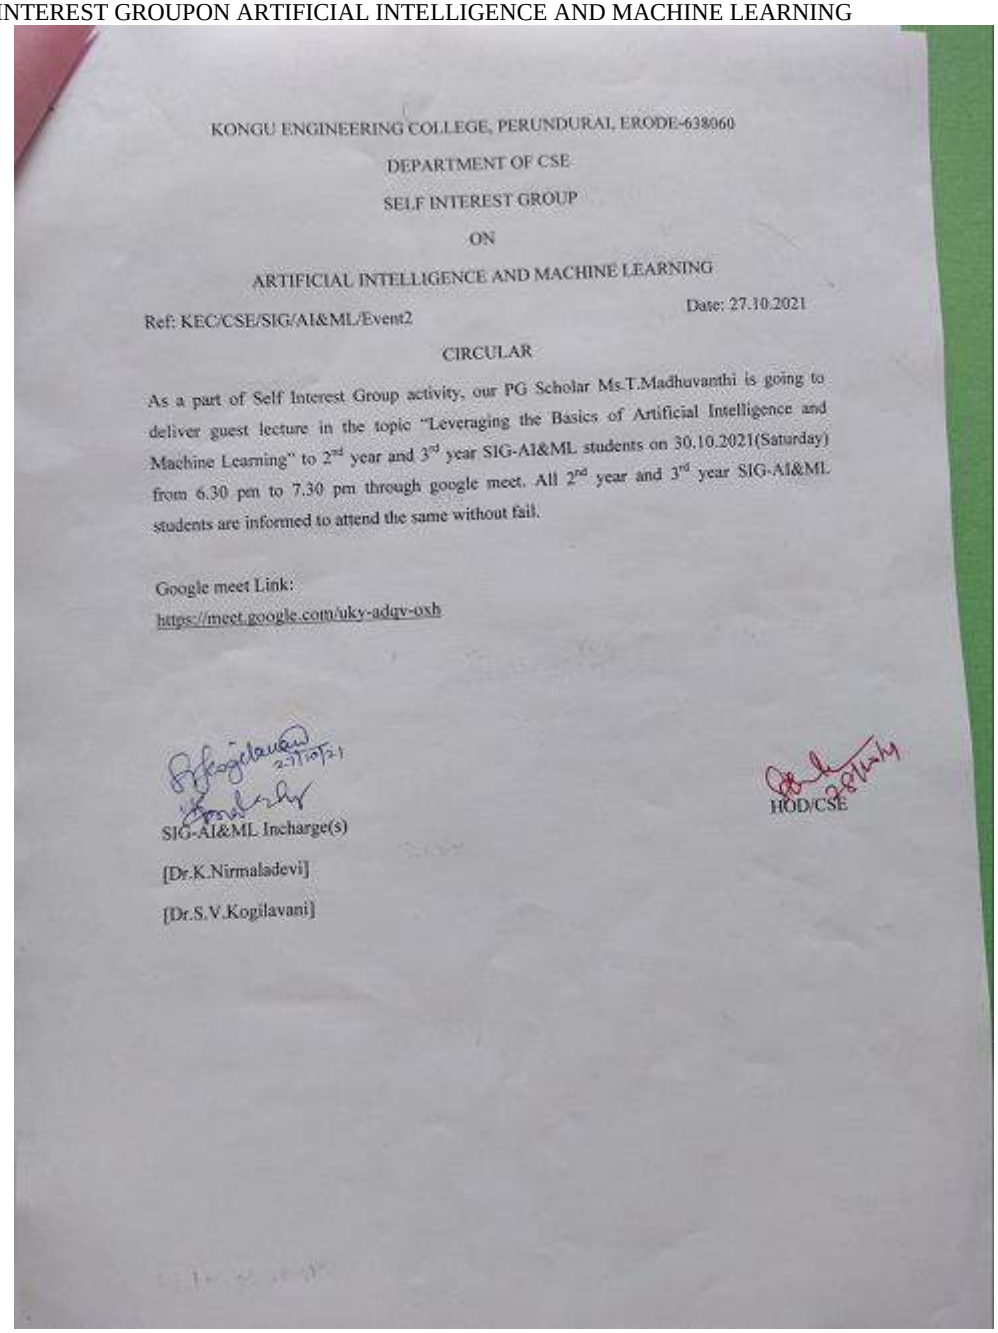

As a part of Self Interest Group activity,

The first event was conducted for second year SIG-AI&ML students on 26.10.21 from 3.30 pm to 4.15 pm at ITP-S10. During the event, our final year student Mr. Pramod was gave Sample Project Demo on working with datasets and various machine learning algorithms. He demonstrated various ways to collect datasets from kaggle, UCI repository. After that gave demo on taking dataset, applying preporcessing, applying machine learning algorithms like naïve bayes, SVM, Regression. Finally he explained about various ways to measure the performance of algorithms using measures like accuracy, precision, recall and f-measure. This session is eye opening session for the students.

EIE ASSOCIATION – GUEST LECTURE

A special webinar which was conducted by EIE association of Kongu Engineering College was held on 30 October, 2021.The enlightening webinar started off in a great manner with a prayer song. The welcome address was a delighting part and Dr. S. Vijayachitra M.E.,Ph.D. Head of the department again welcomed all and addressed the gathering. The chief guest's introduction was given by listing out her achievements. The chief guest was Ms. Jenisha Sharon Jha B.Tech., MBA, Founder of Online Design Studio and Title winner of Madarisse Mrs. India 2021. She addressed the students on the topic "How to become a successful entrepreneur". Ms. Jenisha started the speech with a question "How many of you aspire to become an entrepreneur?" and further she keenly explained the topic with some real time examples and her life experience. All the students enjoyed and at the same time they took some motivation for their life. She gave many stuffs related to what we should do and don't in our career. Her inspiring words made us to understand failure is the part of success though it hurts it gives us delightful end. The queries asked by students to the chief guest and the way she cleared all the doubts of students was inspiring. The ending part was with much gratitude to the faculties who helped us to do and In vote of thanks we mentioned that we want to hear her aesthetic voice once again on some day because of her joyful words.

On October 30, 2021, the Mechanical Engineering Association of Kongu Engineering College, Perundurai, hosted an informative guest lecture. Dr. Komal Thakur was the day's speaker. She was meant to give a presentation on " Energy Efficient Building Envelope", She was excellent in that area and began explaining things in a way that all Students could understand. Because it was more fascinating and easy to learn, the Students were more interested in listening to her words. The day came to a close with some useful information. We recently concluded the session with a heartfelt expression of gratitude to her and the students who attended.

TO BE SUCCESSFUL
- You don't need a better JOB.
- You don't need a better HOME.
- You don't need a better PHONE.
- You don't need a better CAR.
- You don't need better CLOTHES.
You need a BETTER MINDSET.

Inauguration of coding club EIE was held on 1st November 2021 followed by a guest lecture organised by ISoI Students' Chapter. These events held between 6 pm to 7 pm. Office bearers of the newly started Coding Club were appointed and year plan of the club was revealed. Head of the Department Dr.S.Vijayachitra mam addressed the gathering. Then the guest was introduced and the guest lecture started. Topic of the lecture was "Mobile Robotics and IoT Development". The Chief Guest was Mr. A. P. Parameswaran, Embedded Engineer, Katomaran Technologies, Coimbatore. He is also an alumnus of our college. Finally, the programme ended with lots of information and gratitude.

Mr.A.P.Parameswaran, Embedded Engineer, Katomaran Technologies, Coimbatore delivered the guest lecture "Mobile Robotics and IoT Development" on 01.11.2021

REPORT Of THE PROGRAMME

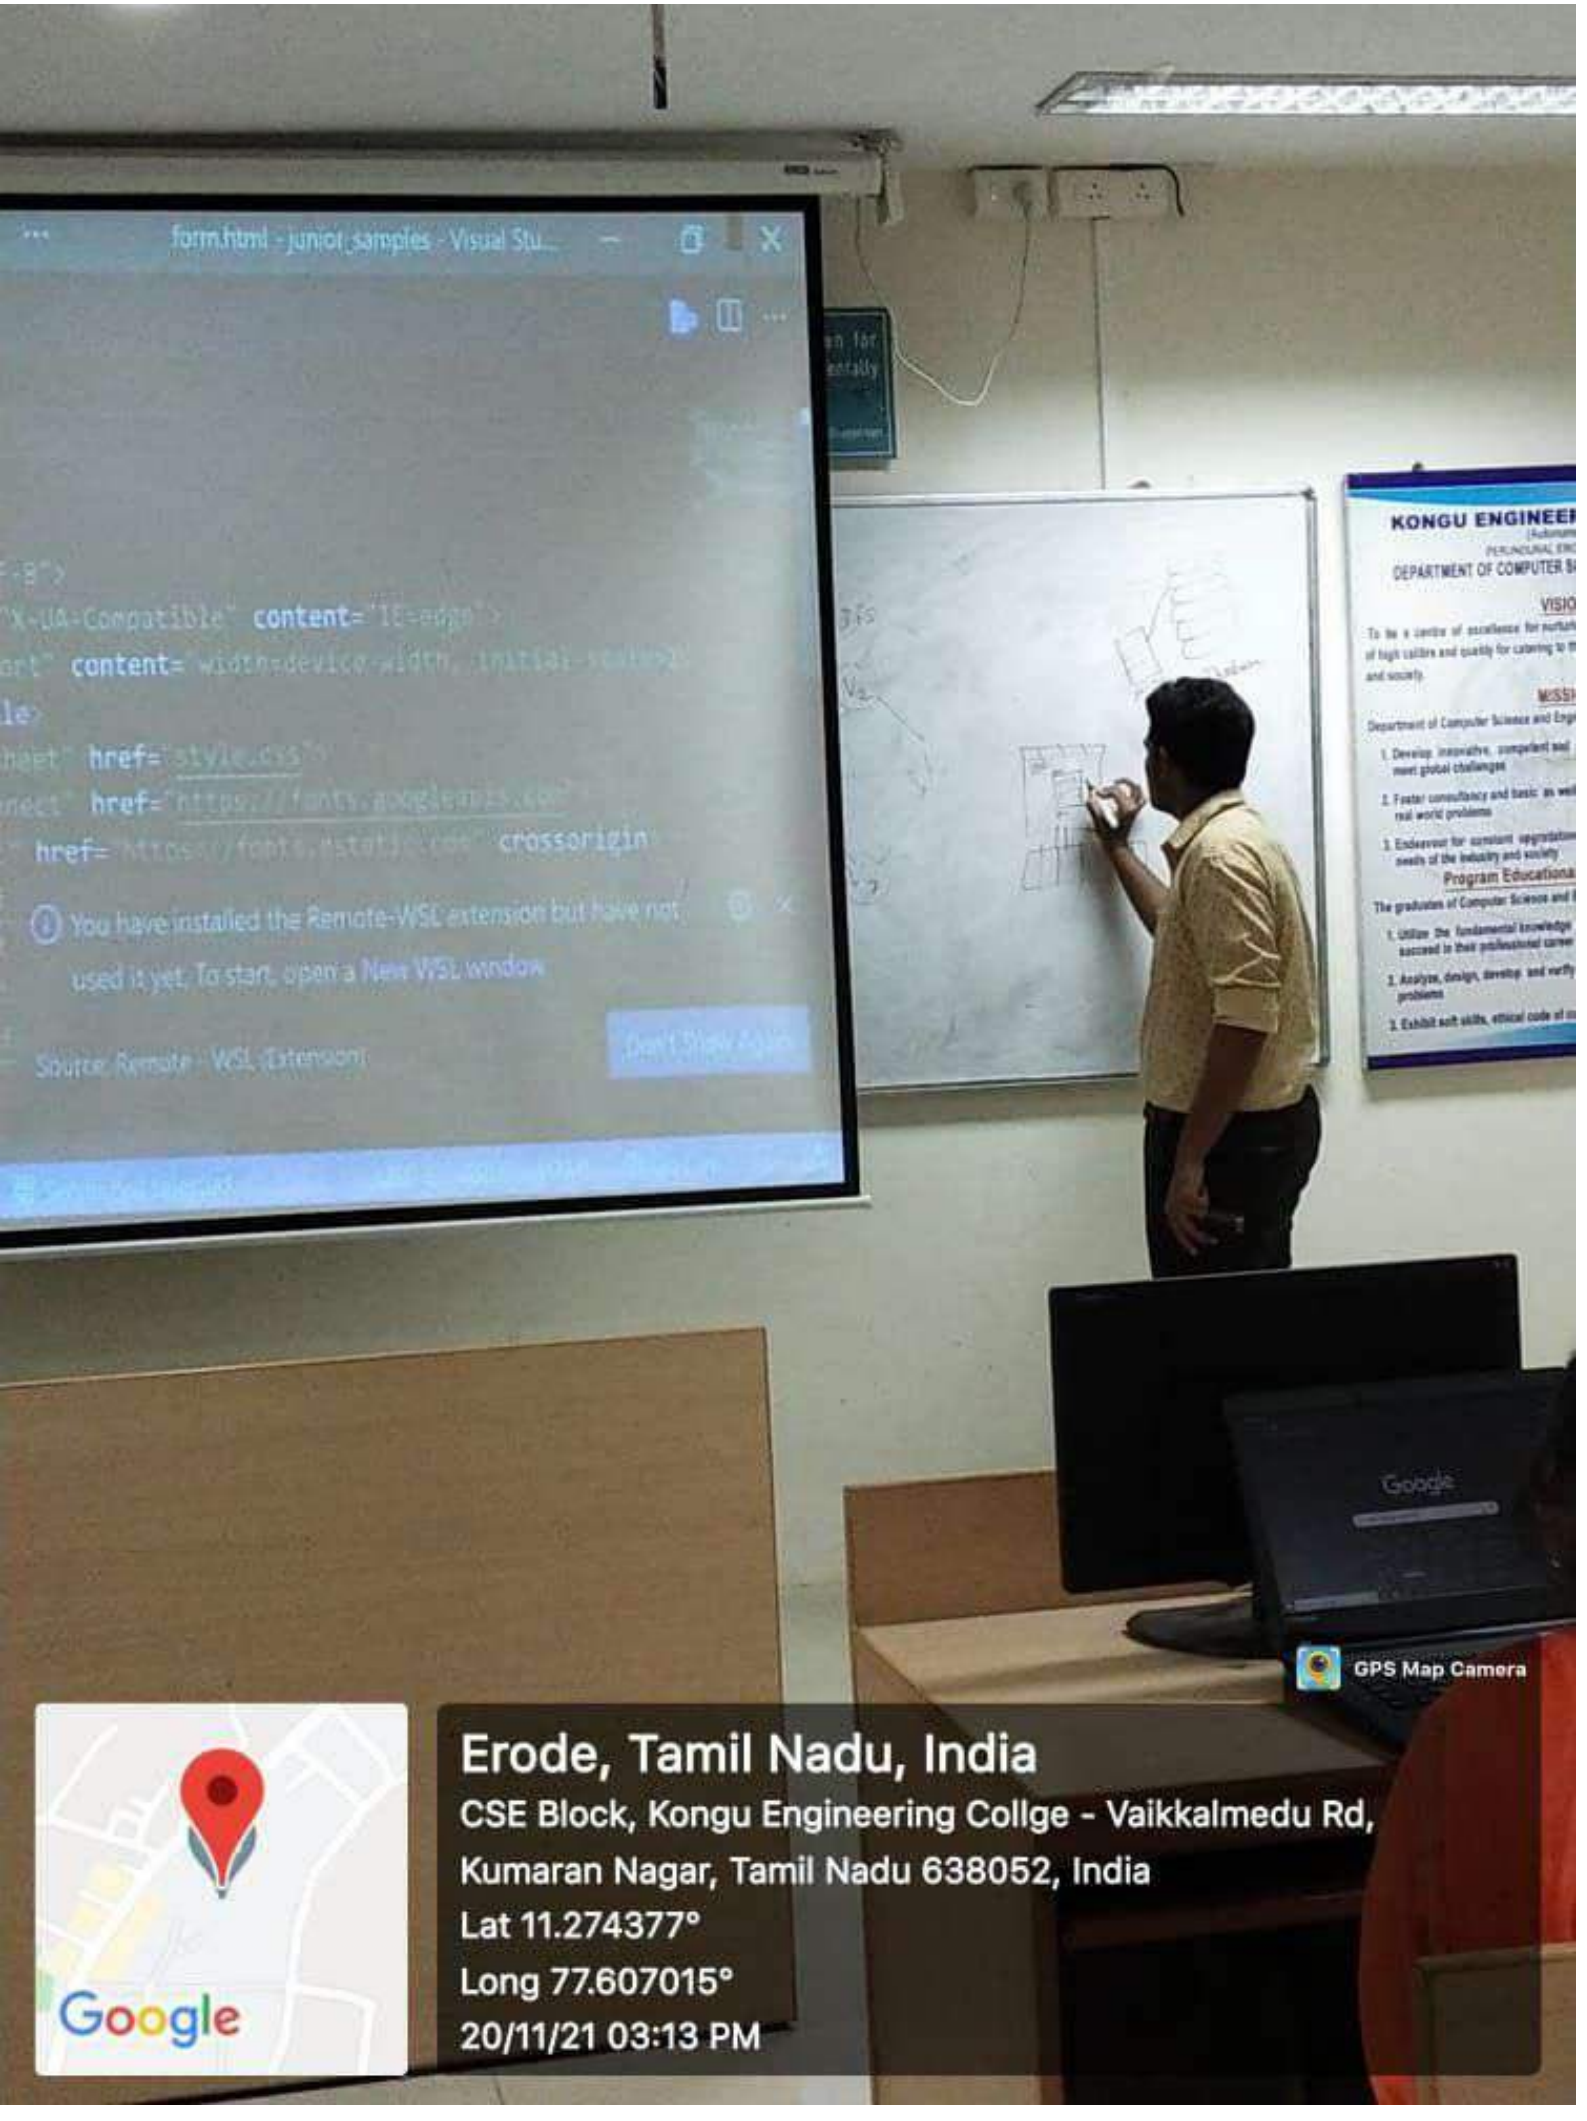

BUILDING PROGRESSIVE APPS

The first guest lecture of SIG – Mobile and Web App Development in association with Computer Science Engineering Association was conducted on 30.10.2021 (Saturday) at 6.30pm through Google Meet platform. The guest lecture was delivered by Mr Abinash S, Associate Software Trainee, Presidio Cloud Solutions. The event commenced with a devotional prayer song by Ms S.Aswathi of second year. Ms P.Suruthi Shri of third year delivered an enthusiastic welcome address followed by the presidential address of ever-inspiring Professor Dr. S.Malliga. The Chief Guest was introduced to the students by Ms.P.Gowri, CSEA team. Then, the lecture was started by our guest on the topic of "Building Progressive Apps". His lecture paved the way for the students to learn the courses in a correct manner. This informative lecture had sowed an interest towards App Development on all students and concluded with much interactive Question and Answer session. The event was led by Ms.Swethika Ramesh and Ms.P.Gowri through their effectual compering finally wrapped up by Mr.M.Neeraj, a CSEA executive member with an alluring vote of thanks.

Brief Description about the Chief Guest and Programme

The first guest lecture of SIG – Mobile and Web App Development in association with Computer Science Engineering Association was conducted on 30.10.2021 (Saturday) at 6.30pm through Google Meet platform. The guest lecture was delivered by Mr Abinash S, Associate Software Trainee, Presidio Cloud Solutions. The topic is “BUILDING PROGRESSIVE WEB APPS (PWA)”. PWA development is a set of optimal software development practices aimed at making a web application function similarly to a mobile or desktop app. Therefore, PWA technology is applied to enable users to access a native-like mobile version of their favorite website with a single tap. The workshop gave brief introduction on how to build PWA and the tools used for the same. This workshop showed how to convert web pages to PWAs. A PWA is not an API or a technology, but it is a web development approach that uses a combination of tools and technologies already available to create targeted, ideal user experiences.

Report of the programme

INTRODUCTION TO DATABASE

With continuity to the previous hands on session, the second hands on session was conducted on 20.11.2021 (Saturday) from 3 pm to 4.15 pm and it was physically organized. The event was started by Dr. S.Malliga, Professor/CSE who briefed about the importance of the database. Then, the session was handled by two of our seniors Mr. Deva P and Mr. Haris S, Third year CSE. Both of them have explained database concepts clearly and encouraged the students to make a login page. They also taught the students on how to connect the database with php. Finally, they also give the details of free websites which would encouraged the students to learn freely by themselves.

INTRODUCTION TO DATABASE

With continuity to the previous hands on session, the second hands on session was conducted on 20.11.2021 (Saturday) from 3 pm to 4.15 pm and it was physically organized. The, the session was handled by two of III year students Mr. Deva P and Mr. Haris S, CSE. These students have already involved themselves in developing many web applications for the association and department activities. The workshop introduced how to work with database so that dynamic web pages can be easily created. Basic SQL queries such as create, insert, delele have been taguht.

Workshop on "Photoshop in Design"

Report

The workshop was conducted on 24.11.2021 and 29.11.2021 for the second year students of this domain. The sessions were handled by Dr.M.Geetha, Assistant Professor (SLG), Department of CSE. She briefed about the various applications of Adobe Photoshop. It is a multimedia tool that can be used to edit and enhance existing images or photographs and design certificates, logos, brochure, and banners. The students were trained on the usage of various tools in Photoshop. They also explored the basic features of Photoshop to edit a photograph and to create special effects by merging multiple images. They were able to enhance the appearance of the images by changing the background. Thus the students have gained the knowledge on the applications of Photoshop.

7. ASSOCIATION WORKSHOP

DATE: 24.11.2021

TOPIC: IoT – Programming, Cloud and Security

CHIEF GUEST: Mr.Ranjithkumar,
Managing Director
Crystal Clear Technology & Innovation
Coimbatore

OUTCOME OF THE PROGRAMME

Association of Computer Applications (ACA) conducted a guest lecture on 24.11.2021 at 1.45 P.M at Mahatma Gandhiji Seminar Hall at EEE Block. We invited Mr.Ranjithkumar. He is a Managing Director at Crystal Clear Technology & Innovation, Coimbatore. He has given the lecture about the use of IoT for development of software and product in industry. The program was followed by enlightening the students with the purpose and importance of IoT in various disciplines. The guest also emphasized on how these programming languages differ from the other languages. This comparative study helped students to get a clear idea about how the programming languages differ from each other and overall it was an interactive session.

Faculty Incharge: Dr.K.Kousalya, Prof/CSE, Ms. J.Gowthami, AP/CSE

Date & Time: 25.11.2021

The CLOUD & IoT SIG of CSE department, Kongu Engineering College had conducted a guest lecture on Creating a chat bot on 25.11.2021. It was handled by Dr.S.Malliga, Prof/ CSE, Kongu Engineering College. In this, chat bot creation using Amazon web services (AWS) were taught to the students. Introduction to AWS, various AWS services, uses of AWS services, chat bot introduction were the few topics that were covered. Few available chatbot services of some websites were also explored. A sample chatbot was also created by the students using AWS Lex.

ASSOCIATION INTRA DEPARTMENT MEET

DATE: 26.11.2021

TOPIC: MINIORION 2K21

OUTCOME OF THE PROGRAMME:

MINIORION is the One day Intra Department Meet organized by Association of Computer Applications, Kongu Engineering College. Orion is Group of stars that will shine themselves and give light to the entire globe. Student can involve themselves and explore their talents through these association activities. Students can leverage their talents like leadership, team building and organizational skills taking this as a platform. As a part of the association activity we made arrangements to participate the students of our department through this meet and to build a concrete bonding among them to share their technical and non technical exposure. The Prizes are awarded for the winners in each event.

ACTIVITY REPORT

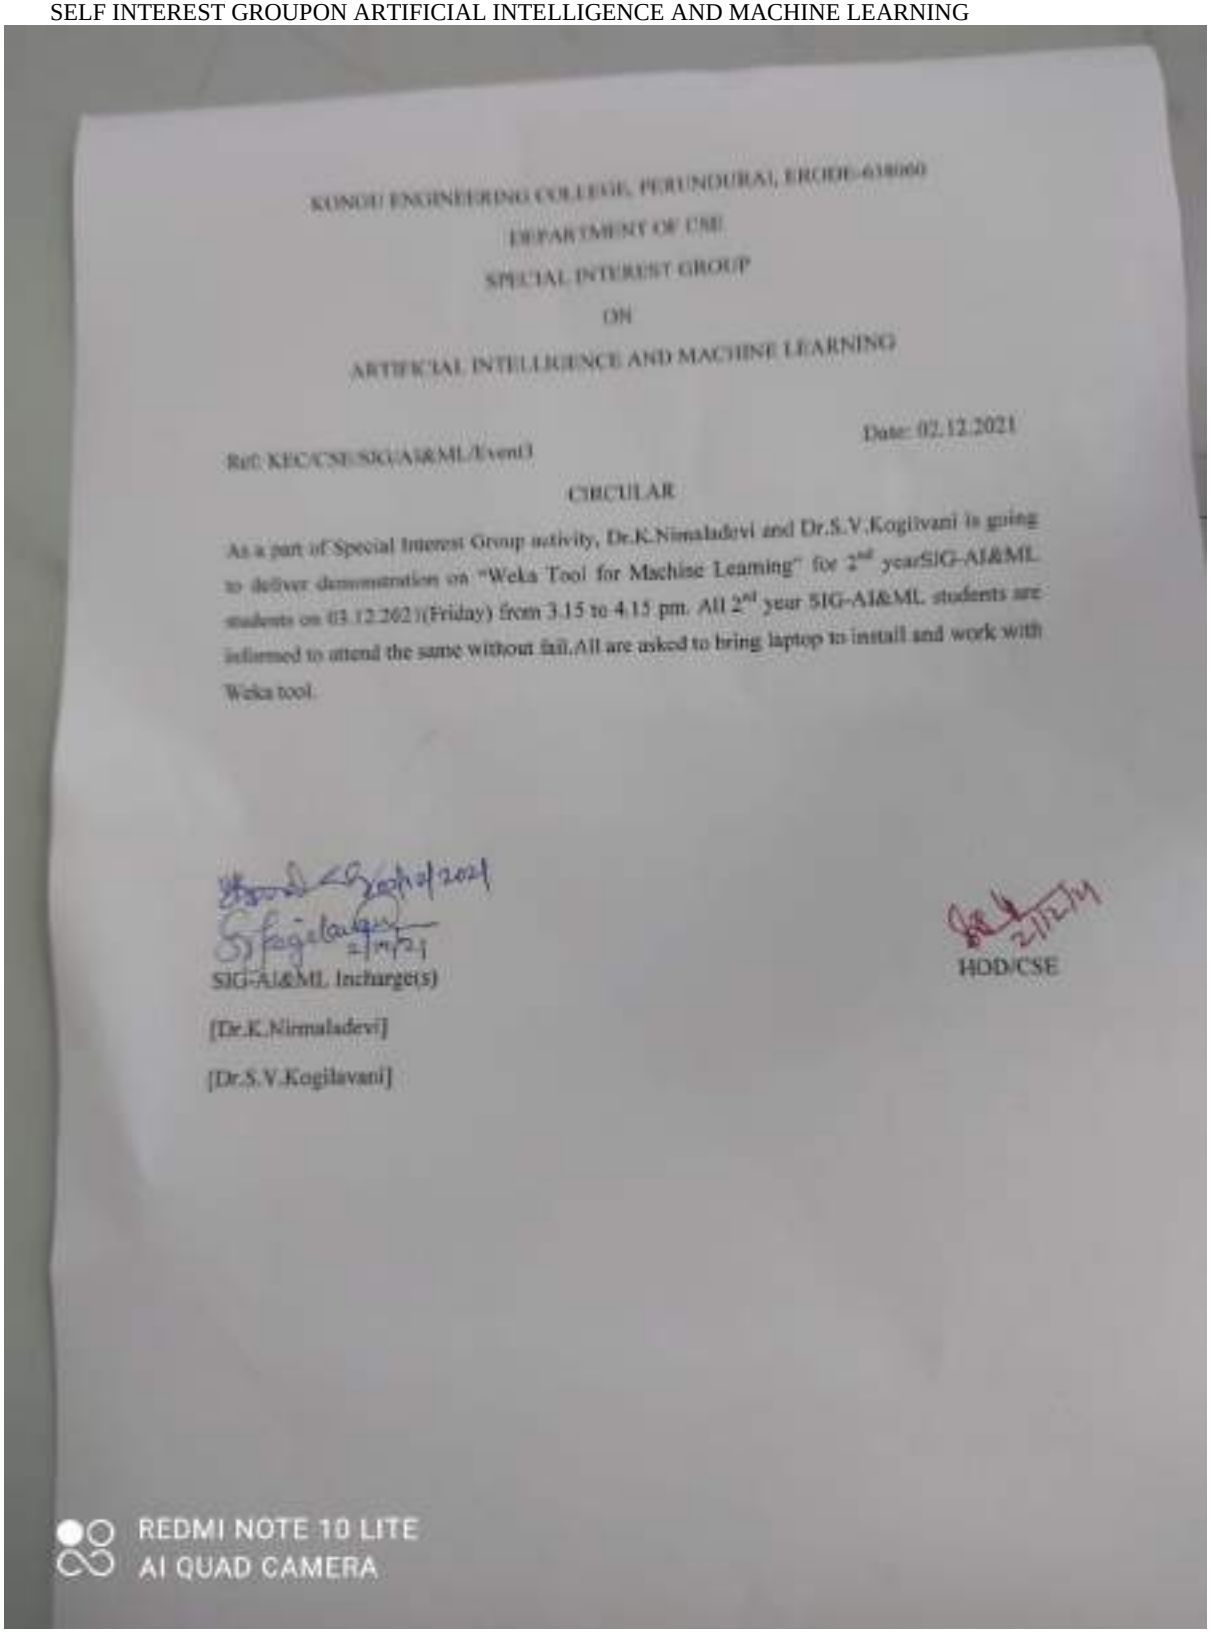

As a part of Self Interest Group activity,

The third event event was organized for second year SIG-AI&ML students on 03.12.2021from 3.15 to 4.15 pm at ITP-ITP-S10. During the event, Dr.K.Nimaladevi and Dr.S.V.Kogilvani delivered demonstration on “Weka Tool for Machine Learning”. Starting from installation of weka, working with preprocesssing like unsupervised and supervised filters were discussed. Various ways to load datasets into weka environment was also discussed. Also hands on given for algorithms like association rule mining and naïve bayes and fixing various values or parameters also discussed.

Front End Development Using Vue.js

L	T	P	Credit
2	0	2	1

Preamble	Vue.js is rapidly growing in popularity due to its ease-of-use. This course will provide the fundamentals of Vue development including creating components, directives, filters, routing, and deploying to production.
Prerequisites	JavaScript, HTML, and CSS.

UNIT – I	**Introduction**	**7**

Getting Started with the Vue.js: Introduction-Features of Vue.js-Vue.js Installation-Create a project using Webpack-Advantages of using Vue.js-Create Vue.js first app-Explore Folder structure of Vue Application- Declarative Rendering- Vue.js Conditions & Loops-Lifecycle Diagram of the Vue Instance-Vue.js Template

Creating Vue.js Components, Events & Data Binding:
Vue.js Component-Vue.js Events-Vue.js Event HandlingMethods-Data Binding-Class and Style Binding- HTML Classes Binding-Inline Style Binding-Form Input Bindings

UNIT – II	**Component Communication and Routing**	**8**

Enabling Inter-component Communication: Introduction-Creating Child Components- Using Props to Share Data with Child Components-Validating Props-Passing Data to Parent Components with Events- Injecting Content into a Child Component with Slots.

Routing from Page to Page : Linking to Routed Pages - Styling Links Based on the Active Route - Navigating from Code - Working with Route Params - Passing Params as Props - Using Nested Routes - Using Named Views -Creating Custom Directives ,Filters and a basic Vue.js Build with the CLI

List of Exercises / Experiments:

1.	Vue.js environment setup, installation and new project creation
2.	Vue.js component creation, Passing Data to Child Components with Props.
3.	Create a notification message component with vue.js
4.	Handling submit, keyup, drag and scroll Events with Vue.js
5.	Create a course end feedback form using input binding along with v-bind: directive, v-bind: class, v-on: click.
6.	Create new user registration form using list rendering
7.	Create a sample login page using conditional rendering.
8.	Demonstrate inline style binding using object, array, auto-prefixing, multiple values.
9.	User profile building using child to parent communication in vue.js.
10.	Create a sample web page and perform navigation between pages.
11.	Creating Custom Directives and Filters
12.	Creating a Basic Vue.js Build with the CLI

Lecture:15, Practical:15, Total:30

COURSE OUTCOMES: On completion of the course, the students will be able to		**BT Mapped (Highest Level)**
CO1	apply the foundational knowledge to design simple applications with Vue components	Applying (K3), Precision (S3)
CO2	create routes and navigate from page to page with Vue.js	Applying (K3), Precision (S3)
CO3	build a project from scratch with the Vue CLI	Applying (K3), Precision (S3)

INTRODUCTION TO REACTJS

L	T	P	Credit
1	0	2	1

Preamble	This course enables the students to learn various features of React and helps them to build applications using ReactJS.	
Unit - I	**Introduction to React**	2
Overview of React JS- Environment Setup- JSX- Components - Virtual DOM - States in React - Props in React - Refs in React-Component Lifecycle - Parent/Child Components - Styling React - Inline style.		
Unit - II	**Building Websites**	3
React Props and state: Creating state - Using state - Changing the state - Passing data - Props in constructor.React Lifecycle: Lifecycle of components - Mount - Unmount - Update. React Events: Event Handlers - Bind. React Form: Create simple form – validation. Integrate Plugin: Using plugin - solving issue - Customize the plugin. API Integration - Integrating the API - fetching data from API - rendering data into UI.		

List of Exercises / Experiments:

1.	Develop a User interactive to-do list using React js
2.	Create a simple Page with Image, Button and Scrollview
3.	Display Current date with running time.
4.	Create simple card view with CSS styling
5.	Create an app to make a simple calculator.
6.	Display content using toggle button.
7.	Create a User interactive to-do list using React js.
8.	Display static data using props.
9.	Create a simple form validator.
10.	Develop an app using Rest API Service.

Respected Sir

Sub: Requesting permission to conduct Non-formal Course - Reg.

I have planned to conduct non-formal course on "Aptitude Shortcut Methods" for the benefit of second year M.Sc students(2019 Batch). This training focuses on the tricks to score high in aptitude, make the students to explore their potential and exercise quantitative reasoning problems. It is proposed to start the course on 27.02.2021 with the maximum duration of 30 hours through online/conventional mode with the course fee of Rs.300/-. I request you to give permission to conduct the same.

Yours Truly

HoD-ECE

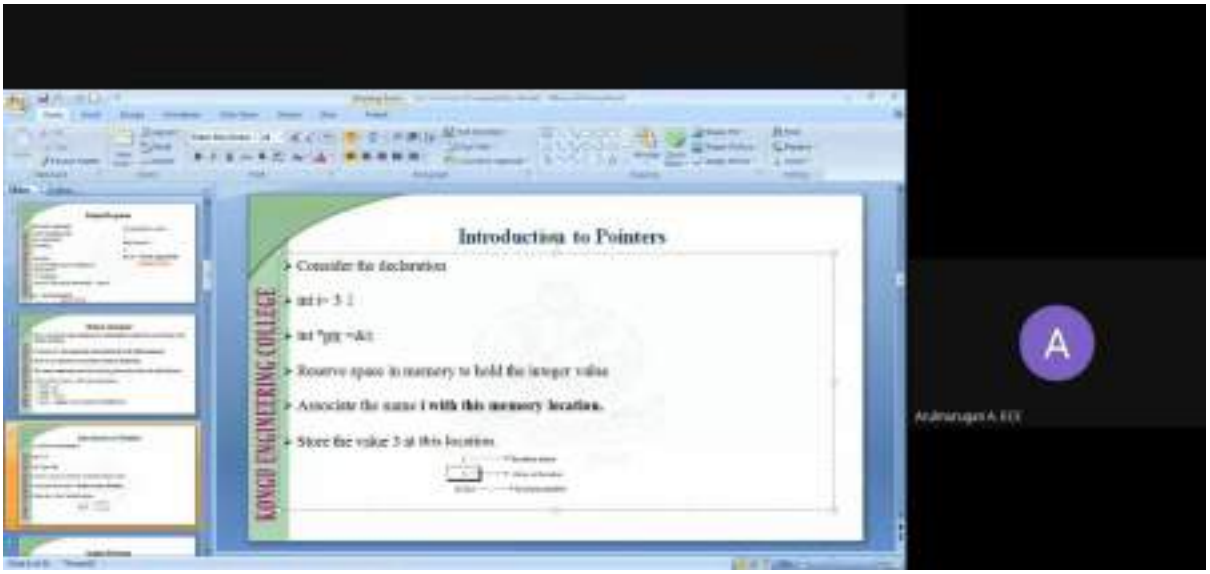

Kongu Engineering College, Perundurai
Department of Electronics and Communication Engineering
Event Name: Refresher Session on C – Arrays, Functions and Pointers
Date: 15.06.2020 to 22.06.2020

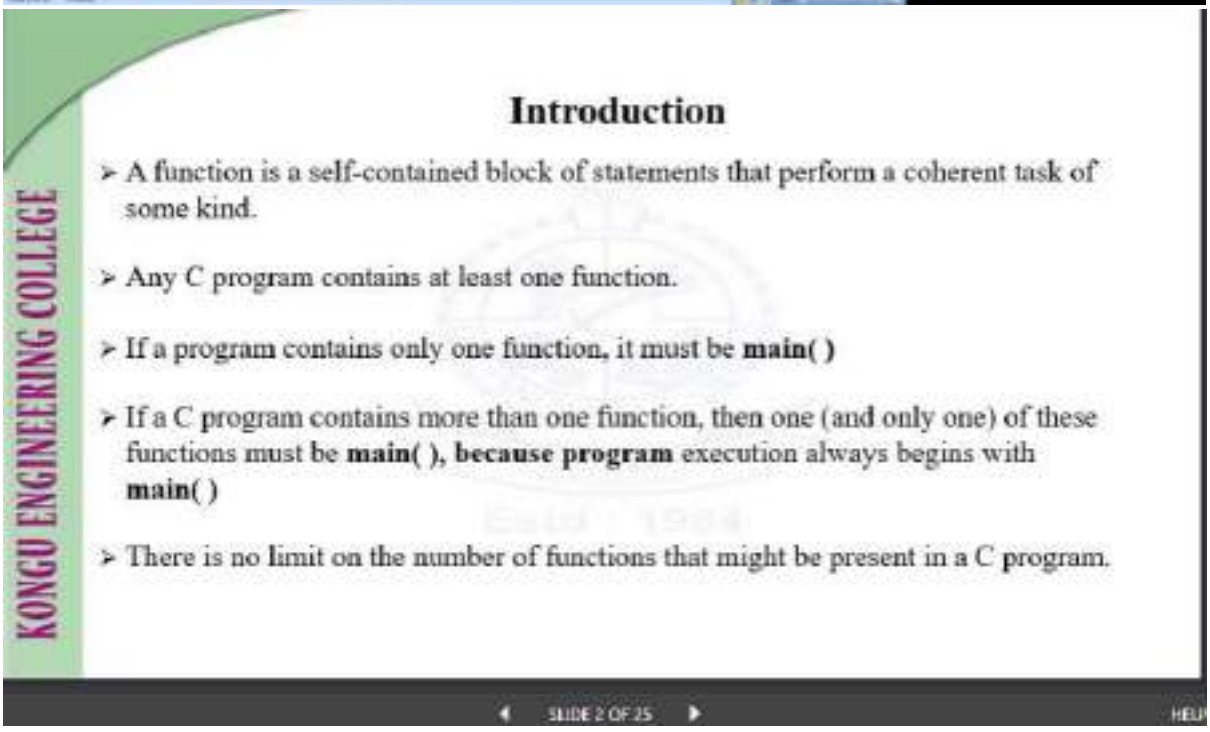

The training is intended to improve the student's knowledge of C arrays, functions, and pointers. The students approached the placement coordinators of our department to provide training to compete IT students and crack the coding round in interview sessions. The training handled by the faculty Dr.A.Arulmurugan,Assistant professor (Selection Grade), G.Ravivarma, Assistant professor, Department of ECE. The training held from 15.06.2020 to 22.06.2020 through Gmeet from 3.00 pm to 4.00 pm.

Preamble This course provides the ability to create the beautiful cross platform mobile apps for iOS and Android devices using Flutter Framework

Unit - I **DART PROGRAMMING LANGUAGE:** 11

Dart Programming Language: Installation - Class, function, variable skeleton - Local variable, global variable - Parameters and arguments - Return type, return statement and reusability - Datatypes (Number, Strings, Boolean, Lists, Maps, Runes, Symbols) - Operators (Arithmetic, Assignment, Relational, Type test, Logical, Conditional) - Enumeration - Constant (final, const)- Conditions (if, if..else, if .. else if... else, switch) - Loops (for, for..in, while, do... while) - OOPs [classes & object, Constructor, this keyword, static keyword, super keyword, inheritance, super constructor, method overriding, getters & setters, abstract classes, interfaces] - Exception - Typedef - Metadata – Collection- Generics - Packages - Libraries - Generators - Callable classes - Isolates – Async.

Unit - II **FLUTTER FRAMEWORKS:** 12

Installation and setting up flutter development environment [Flutter SDK, Android Studio, Dart] – Emulator: Launching Emulator – Editing Emulator Settings - Basic widgets: Stateful and Stateless Widgets- Value Widgets (Text, Image, Icon, Buttons) – Form Widgets-Layout Widgets: Scaffold – AppBar widget- SafeArea widget-Widget sizing-Special layout widgets-Theme widgets-Responding to gestures: Button family- Custom Widgets for custom gestures-gesture examples.

Unit – III **FLUTTER TESTING AND DEPLOYMENT :** 07

Navigation and Rounding: Stack navigation – Drawer navigation – Tab navigation – Working with data in Firebase – Working with Location and Maps – Flutter Testing – Flutter Deployment: Obfuscating Dart code - Creating flavors for Flutter- Build & release an Android app- Build & release an iOS app.

List of Exercises / Experiments:

1. Installation of Dart programming language
2. Given a phrase, count the occurrences of each word in that phrase
3. Installation of Flutter SDK and Android studio
4. Create an infinite scrolling ListView
5. Create a simple form with validation
6. Create a scaffold with Drawer
7. Create a download button that has a stateful widget
8. Create a nested navigation flow
9. Create material touch ripple
10. Develop an app that utilizes location
11. Perform a Widget testing
12. Deploy an Android App that uses firebase

Lecture:30, Practical:30, Total: 60

ELECTRONICS FOR US WORKSHOP

Kongu Engineering College, Perundurai

Department of Mechatronics Engineering

Event Name: Electronics For Us Workshop. Date:25.09.2021&26.09.2021

Mechatronics engineering association as conducted basic electronic workshop on 25th and 26th September 2021. The Workshop was very useful for the juniors. The students showed more interest to listening senior's words.The hands-on training helped them to know about the basic electronic component and circuits and they had a good interaction between seniors. The day ended with a knowledgeable stuff. Lately, we ended the session with deep sense of Thanksgiving to the students who attended the session.

"Electronics For Us Workshop" for second year conducted by their seniors on 25.09.2021&26.09.2021.

CIRUCULAR

Dear Professors, training cell had already planned to conduct advanced company specific core training from February 2020 to July 2020 to 2021 batch students by BYTS Ltd. Initially 330 students were identified and training was started for them from February 2020 and training completed for 6 1/2 days. Due to this unprecedented lockdown, the training could not be continued. Since company's are approaching us for placement, we would like to resume the training. **To start with, we will continue the training for those students from Monday 29.6.2020 onwards.** We will continue for the remaining students after these batches are successfully completed. The name list of the students are attached for your reference. Kindly encourage your students to attend the training.

Event Name: Six weeks Webinar series in the online platform during the month of october – November, 2020

IEEE ANTENNAS & PROPAGATION SOCIETY (MADRAS CHAPTER) in association with IEEE-APS , IEEE Student Branch and Department of ECE, Kongu Engineering College,Perundurai,Erode has organized Webinar series in the online platform during the month of october –November, 2020 by Dr.T.Shanmuganantham,IEEE APS Madras Chapter Chairman, Dr.J.Vijayalakshmi, Dr.V.Dinesh and Dr. N.Nithyavathy, Professor,Kongu Engineering College. Eminent persons from Research centers like DIAT,DRDO, ISRO, Academic persons from NITs, researcher from Loughborough University,UK were handled the six webinar series (1.O -6.O). Participants from all over India from various institutions were attended this webinar.

Event Name: Webinar 1.O - 5G Millimeter Wave Antennas

Date : 10.10.2020

We have organized an event to enhance deeper ended knowledge among participants from academic, industries and also for researchers.5G is the next technological marvel enabling ubiquitous portable systems for the realization of Internet of Things (IoT). Millimeter-wave frequency range is a pre standardization favorite for the portable 5G applications. High performing millimeter-wave devices require efficient low-profile antennas to ensure reliable and interference-free communications.

Mr. Aakash Bansal, PhD, Researcher, Loughborough University, UK student reach, NISAU-UK. delivered the webinar “5G Millimeter Wave Antennas” on 10.10.2020

Event Name: Webinar 2.O - RF sensing of Low RCS Aerial Target

Date : 20.11.2020

RF sensing of low RCS Aerial target webinar session by Dr.Arockia Bazil Raj has delivered detailed lecture on this topic for the benefit of many researchers. The detection of a low radar cross-section (RCS) target moving at a very high speed using a high-resolution millimeter-wave radar is presented. This real-time detection is based on the transmission of a continuous wave and heterodyning of the received signal reflected from the moving target. This type of detection enables one to extract the object's movement characteristics, such as velocity and position, while in motion and also to extract its physical characteristics.

Dr.Arockia Bazil Raj, Defence Institute of Advanced Technology(DIAT), DRDO, Pune delivered the webinar "RF sensing of Low RCS Aerial Target" on 20.11.2020

Event Name: Webinar 3.O - EBG structure and their applications for Antenna design

Date : 24.10.2020

We have organized the webinar on the topic of "EBG STRUCTURE AND THEIR APPLICATIONS FOR THE ANTENNA DESIGN". In Wireless Communication, antenna plays a major role in both long range communications and also in short range communications. To get better improvement in the antenna design EGB (Electromagnetic Band Gap) structure is used. EBG comes under in the artificial Periodic Designs. Some of the applications of EBG structures are low profile, bandwidth enhancement, Band notched characteristics, mutual coupling, reconfigurability, gain/directivity enhancement. All these details were elaborately delivered by the eminent speaker.

Dr.Taimoor Khan, Assistant Professor/ECE, NIT,Silchar delivered the webinar "EBG structure and their applications for Antenna design" on 24.10.2020

Event Name: Webinar 4.O - Design and research challenges of Satellite Antennas

Date : 31.10.2020

Webinar on design and research challenges of satellite antennas was delivered by well experienced research scientist Dr.V.Mahedevan. His research experience on satellite antennas is very much benefittable for many researchers. Communication is one of the most essential activities of mankind and there is no doubt that satellite communications have made a tremendous stride in this matter. The practical implementation of various types of satellite antenna designs over time and to indicate the current state of the art and future trends to develop even higher gain satellite antennas with greater efficiencies in terms of frequency reuse or higher capacity FSS or MSS type satellite systems. Although there continue to be smaller satellites that are launched for communications purposes, the antenna designs utilize the same technologies and concepts that are employed in larger scale satellites.

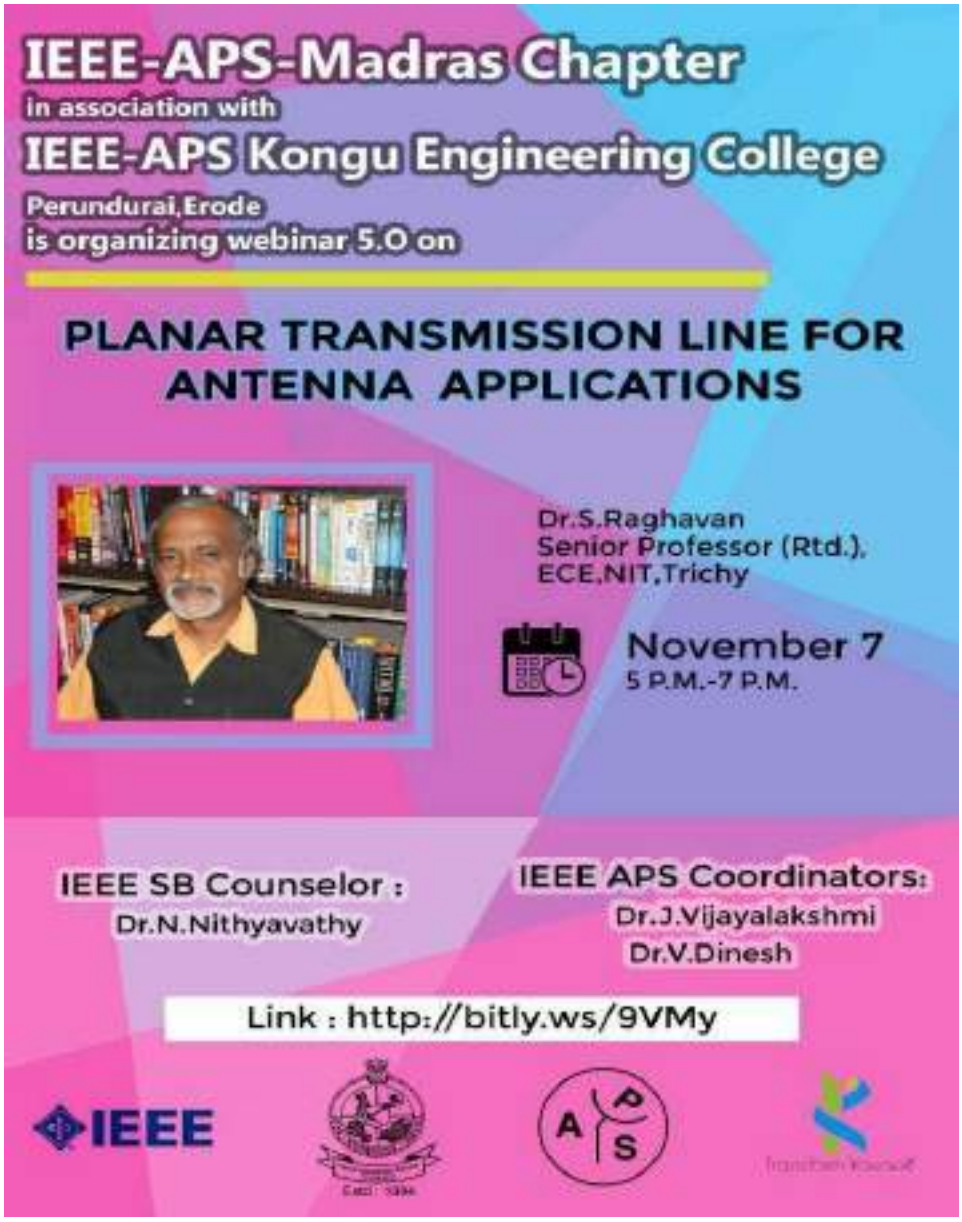

Dr. V. Mahadevan, Group Director of ISRO (Rtd.), Bangalore delivered the webinar “Design and research challenges of Satellite Antennas” on 31.10.2020

Event Name: Webinar 5.O - Planar Transmission line for Antenna Applications

Date : 07.11.2020

The planar transmission lines and especially the microstrip lines has been a major field of study over the recent years. It has also attracted a lot of attention to its advantage of being modified to a patch antenna. The development of planar transmission lines for broadband communication suitability as well as for the manufacturing of monolithic microwave integrated circuit gives us ear picture of the range of its application and benefits. Detailed description about the microstrip lines and planar transmission lines for antenna application was delivered by Dr.S.Raghavan, NIT,Trichy.

Dr. S. Raghavan, Senior professor (Rtd.), ECE, NIT, Trichy delivered the webinar “Planar Transmission line for Antenna Applications” on 07.11.2020

Event Name: Webinar 6.O - Antennas for Space Applications

Date : 14.11.2020

In recent years, especially antennas used in satellite communication systems are expected to have low volume, lightweight, low cost, high gain and directivity. Omnidirectional antennas for ground station applications working performance and its features description was delivered by experienced distinguished scientist Dr. Surendra Paul. “Antennas for Space Applications” webinar session provides an overview of design approaches, constraints and technical solutions for space antennas, addressing both theoretical and technological issues.

Dr. Surendra Paul, Distinguished Scientist, UR RAO Satellite Centre, Bangalore delivered the webinar “Antennas for Space Applications” on 14.11.2020
