

# *Web Development Bootcamp*

Date :**25.09.2021**

“The road to success and the road to failure are almost exactly the same. “

This web development bootcamp was conducted on 25th september, 2021(Saturday), by our final year student Mr. S Abinash. The Computer science and Engineering Association hosted and organised the bootcamp for the second year students. Nearly 50 students participated in this bootcamp and gained knowledge from the latter. Our instructor Mr. S Abinash is the Associate software trainee in Presidio cloud solutions and is an experienced full stack developer who has developed many other successful websites for the college and also other firms. The topics covered in the bootcamp were the basics HTML, CSS, JS, PHP and HOSTING. The bootcamp also consisted of an effective hands on session and polling sessions where the students were able to implement the learnt concepts and test their knowledge. Students who participated were very much interested and eager to learn more about web development and were very interactive with the instructor and the organisers. Overall the event was a smashing success and we also received really great feedback from the participants.
